

ACS580-01...+C135, ACH580-01...+C135 and ACQ580-01...+C135 frames R4 and R5 flange mounting kit quick installation guide **ABB** parts Available as option +C135 and separately with ordering codes: 3AXD50000031460 (R4) and 3AXD50000031461 (R5). R4 IP21 (UL Type 1) For IP55 (UL Type 12) the plug is installed at the factory. (i) 4 × M5×20 screw 3 N⋅m 4 × M6 nut 8 × M6 nut 6 N·m (4.4 lbf·ft) 6 N·m (4.4 lbf·ft) (d)4 × M5×20 screw (b) 16 × M6×25 screw 23 × M6 nut Note: Attach this end to the bottom U-bracket to make sure that the sealing is tight. Note: First attach the inner sides of the brackets (1) that touch the drive, Frame R5 only Frames R4 and R5 then the outer sides (2). Attach the clamp plate. 2 × M4 nut, 1 N·m(0.7 lbf·ft) Remove the tightening bracket from the front of the fan. 8 × M6 nut 6 N·m (4.4 lbf·ft) 1 Note: Wear protective gloves when working.

R4 IP21 (UL Type 1) only

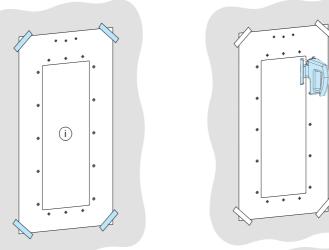

Remove the control panel (a) and cover (b) to install the auxiliary fan (ordering code 3AXD50000034334). Cut off the protective plate from the fan slot (c) and install the fan (d). Make sure that the arrow on the fan points outwards. Connect the fan cable to FAN2.

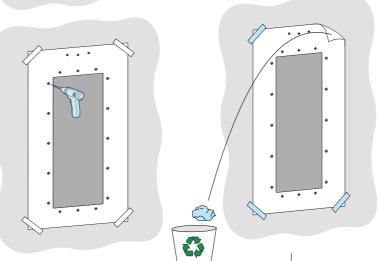

Drill holes for M6 Rivet or Kalei nuts. Consider the hole size for the nuts. Rivet/Kalei nuts are not included in the delivery.

Note: The mounting templates are different (size, number and position of holes) for different frame sizes.

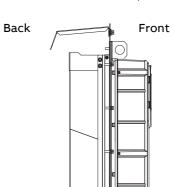

UL Type 12 only

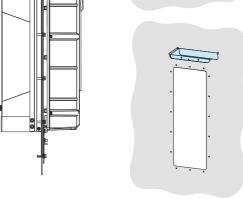

UL Type 12 is fulfilled on the drive backside when the flange and hood are installed. Hood is not required for IP55.

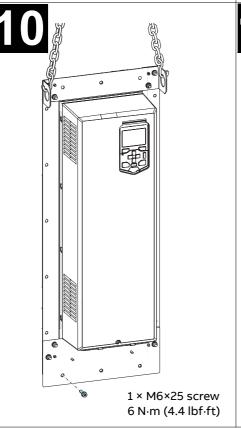

3 x M6 nuts 6 N·m (4.4 lbf·ft)

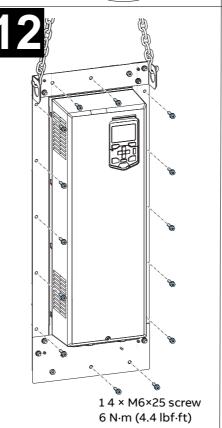

Hood (view from bottom)

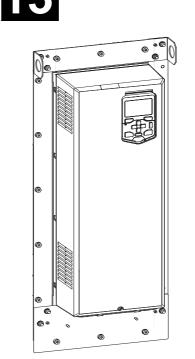

Hood (view from top)

1 × M6×25 screw 6 N·m (4.4 lbf·ft)

For dimensions, see the mounting template delivered with the flange mounting kit or ACS580-

01...+C135, ACH580-01...+C135 and ACQ580-01...+C135 drives with flange mounting kit supplement (3AXD50000349821 [English]).
