

## Gateway Release Information

**This release information is valid for following products,**

### **Valid for:**

<b>Gateway GATE-EIP</b>	<b>2TLA020071R9000</b>
<b>Gateway GATE-EC</b>	<b>2TLA020071R9100</b>
<b>Gateway GATE-S3</b>	<b>2TLA020071R9200</b>
<b>Gateway GATE-PN</b>	<b>2TLA020071R9300</b>
<b>Gateway GATE-MT</b>	<b>2TLA020071R9400</b>

# Gateway Release Information

=====

**Gateway GATE-EIP                    2TLA020071R9000**

Major number: indicate application protocol change.  
 Minor version: indicate application functional change.  
 Sub version: indicate bug fix and/or minor updates.

=====

Version	Date	Change
2.11	2014-12-19	First release. This version data can differ on first delivered unit but no change.
2.12	2015-05-11	Minor update released, when GATE-EC and GATE-S3 was released to the market. There are no changes which will affect the end user.
2.13	2015-11-11	Add support for TFTP server. Add support for Pluto remote monitor. Add support for device firmware update via serial terminal and telnet. Add support for EoE on GATE-EC. Add support for PROFINET with GATE-PN. Add support for Modbus TCP with GATE-MT. Added is the Pluto remote monitor function via the Ethernet telnet server.
2.14	2016-02-23	Add Pluto bus (CAN bus) error handling. Add timeout handling during telnet login. Improved text and action behaviour on several terminal commands.
2.14.1	2016-07-19	Add timeout on FTP connection. Some minor bug fixes.
2.15	2017-03-15	Add support for Pluto remote control. Removed support for FTP. Removed support for TFTP. Removed support for Web. Removed firmware update via the remote connection (telnet). Removed login handling to remote (telnet) connection. Improved text and action behaviour on several terminal commands.
2.15.1	2017-11-21	Fix bug related to download of large Pluto PLC program.
2.15.2	2020-03-20	Bugfix related to K button function.

# Gateway Release Information

=====

**Gateway GATE-EC                    2TLA020071R9100**

Major number: indicate application protocol change.  
Minor version: indicate application functional change.  
Sub version: indicate bug fix and/or minor updates.

=====

Version	Date	Change
1.0	2015-05-11	First release.
1.1	2015-11-11	Add support for TFTP server. Add support for Pluto remote monitor. Add support for device firmware update via serial terminal and telnet.
1.2	2016-02-23	Add Pluto bus (CAN bus) error handling. Add timeout handling during telnet login. Improved text and action behaviour on several terminal commands. Corrected LED status indication for EtherCAT. Added support for Omron EtherCAT address handling. Added support for EtherCAT hot-plug handling.
1.2.1	2016-07-19	Add timeout on FTP connection. Some minor bug fixes.
1.3	2017-03-15	Add support for Pluto remote control. Removed support for FTP. Removed support for TFTP. Removed support for Web. Removed firmware update via the remote connection (telnet). Removed login handling to remote (telnet) connection. Improved text and action behaviour on several terminal commands.
1.3.1	2017-11-21	Fix bug related to download of large Pluto PLC program.
1.3.2	2020-03-20	Bugfix related to K button function.

# Gateway Release Information

=====  
**Gateway GATE-S3                    2TLA020071R9200**

Major number: indicate application protocol change.  
Minor version: indicate application functional change.  
Sub version: indicate bug fix and/or minor updates.
