

## Course goal

The object of the course is to provide Local Managers and Controllers with background information about the scope of ATLAS and the data which is shown in MI (Management Information). Furthermore, participants will learn how to use the ATLAS tools. Here, the handling training is focusing on the reports in the analysis / self-service section.

Please remark: The course is focusing on management information in ATLAS. The AIM Estimate area won't be covered in this training course.

## Learning objectives

Upon completion of the course, participants will be able to

- describe the scope of the ATLAS solution
- explain how and what data is captured
- use the dashboards and analysis tools
- interpret the information provided by the ATLAS tools
- explain how support works for ATLAS
- obtain information about progress and status of AIM (ABB Information Management).

## Participant

Line Management and Controlling personnel

## Prerequisites

Laptop. Access to ATLAS. Online Training FP10 (ATLAS Analysis for Excel).

Basically all employees with access rights to ABACUS are automatically granted access to ATLAS.

Please contact Dominique Randon if you have any questions in this regard.

## Topics

- Introduction to ATLAS
- Background of data in ATLAS
- ATLAS analysis tools training (Analysis for Excel, Analysis for OLAP)
- ATLAS support
- Future topics/outlook (AIM project)

## Methods

Presentation, training exercises

## Duration

0.5 day (08.30-11.30) with subsequent lunch
