

April 15, 2015 | Sulphur, Louisiana

ABB Service Center Open House

Power and productivity
for a better world™

ABB Service Center

Thank you for joining us to dedicate this new ABB Service office, part of an expanding footprint of local ABB resources to serve energy, oil, gas, chemical and petrochemical industries.

This office will provide services and support for ABB control systems, instrumentation, analytical products, low voltage drives, power systems and products. It will be staffed with engineering, support and training personnel and will offer scheduled in-center training, as well as customized training courses.

Today's open house will display a wide variety of automation and power equipment including wireless communications, measurement and analytical products (instrumentation, level and process analytics), gas insulated switchgear, protection relays and other control and power products.

The ABB Service Center open house is proudly presented by the following:

- **Milton Wisby**, Service Account Manager, Oil, Gas and Chemicals, ABB Process Automation
- **Donald Westfall**, Operations Manager, ABB Process Automation
- **Brandon Spencer**, Vice President, Oil, Gas and Chemicals in the US
- **Kevin Kosisko**, Americas Region Division Manager, ABB Process Automation
- **Dennis McKinley**, North America Business Development
- **Garry Freeman**, Corporate Account Manager, ABB Process Automation
- **Robert Horton**, Director, Service Operations, South USA Region, ABB Process Automation
- **Dinesh Sachdeva**, Director, North America Service, ABB

Open house program

Open house and equipment trucks will be available from 8:30 AM – 6:30 PM

Barbecue from 11:30 AM – 6:30 PM

Ribbon cutting ceremony at 10:00 AM

Brandon Spencer, Vice President, Oil, Gas and Chemicals in the US
