System pro *E* comfort MISTRAL®

Create your own masterpiece

The new system pro *E* comfort MISTRAL® series of consumer units gives you the freedom and flexibility to install almost any kind of electrical distribution system in industrial, commercial or residential environments. These innovative units have been designed from scratch to enhance the unique features you expect from ABB in terms of versatility, efficiency and safety.

Fast and easy installation

Ample internal space makes cabling fast and easy, and also enables you to anchor cable ties to special eyeholes in the frame. Various snap-on terminal blocks in two different colours can be installed in both the upper and lower part of the units, offering you even more flexibility. The system pro *E* comfort MISTRAL® series is also fully compatible with a unified range of accessories for a wide variety of applications.

Everything about the system pro *E* comfort MISTRAL® series has been designed to make installation easier, allowing you to set up high-quality consumer units that look great anywhere.

Elegant design features

Made from halogen-free (for GWT650 versions), recyclable thermoplastic, the series comes with IP41 and IP65 ratings. It also includes flush-fit and wall-mounted versions so there's always a solution to fit your decorative requirements. Other elegant design features include transparent or opaque doors that open up to 180° enabling full access to the interior of the units. Perfect symmetry also means you can rotate either the front panel or the entire unit to let the door opens from the right or the left.

Innovating today does not just mean looking for functional and technologically advanced solutions. For ABB, being innovative means embracing a longer-term perspective by using eco-compatible materials for our products which respect the environment even at the end of their life cycle. For this reason, 100% recyclable halogen-free thermoplastics have been used for the consumer units. Their environmental compatibility has been evaluated using the Life Cycle Assessment (LCA) method, an objective tool for assessing energy and environmental impact which analyses the energy and materials used and the emissions released during production.

System pro *E* comfort MISTRAL41F series

Create your own masterpiece

The new System pro *E* comfort MISTRAL41F series of consumer units gives you the freedom and flexibility to install any type of electrical distribution system in residential buildings. These flush-fit, IP41-rated units have been designed from scratch to enhance the unique features you expect from ABB in terms of versatility, efficiency and safety. The System pro *E* comfort MISTRAL41F series is one of the widest ranges on the market, so there's always a solution to fit your requirements. The units come in various sizes with three cable entry options and space up to 72 modules, enabling installation in brick, concrete or plasterboard walls. The depth of the box ensures a perfect balance between internal space and installation in thin walls. And with a front cover depth of less than 30 mm, the units fit in the tightest spaces. Everything about the System pro *E* comfort MISTRAL41F series has been designed to make installation easier, allowing you to set up high-quality consumer units you can be proud of.

Elegant design
combines reliable technology
with a modern decorative look.

Endless installation possibilities

Door opens up to 180°
allowing full access to the
interior of the unit.

Door available in two
versions: petrol blue and
opaque.

The depth of the base box
ensures a perfect balance
between internal space and
the possibility of installation
in thin walls

The symmetrical design
allows opening of the
reversible door either from
the left or from the right.

Endless installation possibilities

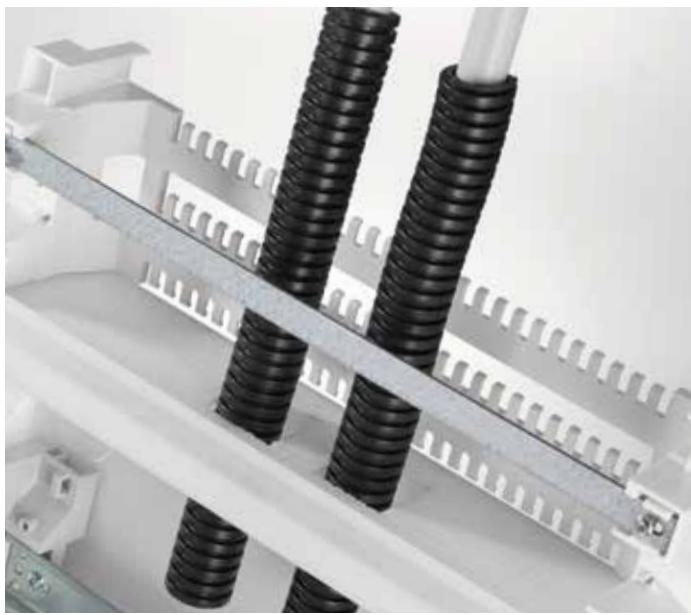

Horizontal coupling

The consumer units can be coupled side by side with the horizontal junction unit accessory, protecting the passage of cables between adjacent units.

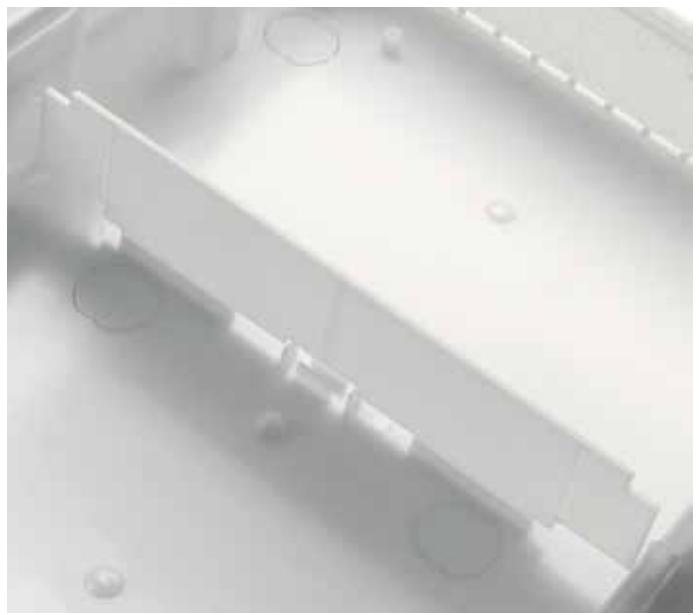

Mortar guard

All versions include a mortar guard that prevents mortar sprays inside the consumer unit.

Dual-function accessory

A single accessory performs a dual function. It can be used to fix pipes to the unit's housing or to vertically couple two consumer units.

Internal partition

The horizontal partition allows the interior of the unit to be divided into two parts.

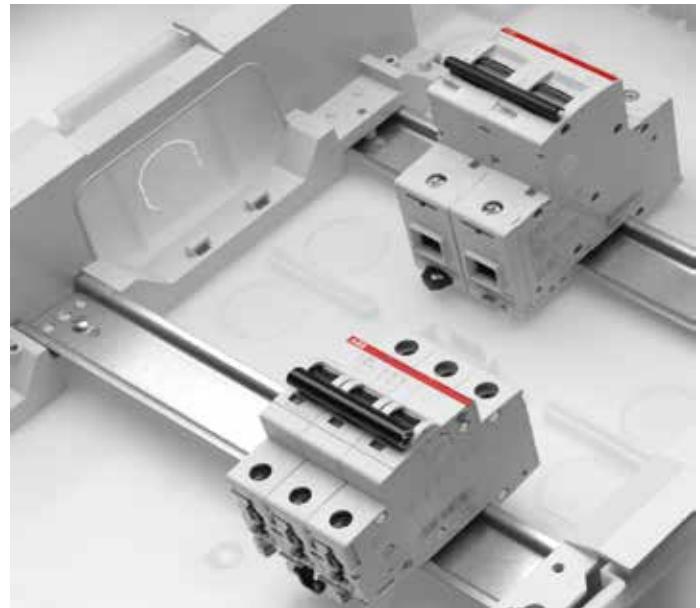

Flanges

The flange with multi pre-cuts is designed to be sheared only where necessary in order to ensure a more secure fastening. The removable flange with knockout holes ensure a reliable and safe placing of flexible pipes and other conduits, especially in plasterboard installation.

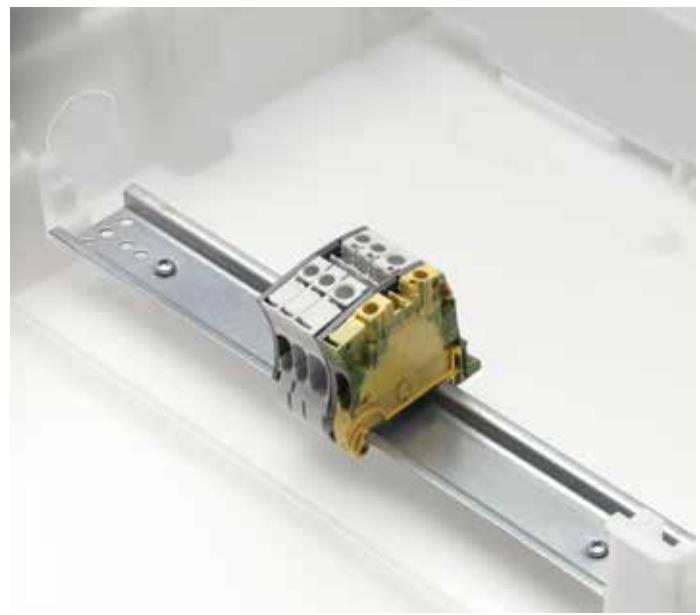

Two DIN rail positions

The extractable frame has two DIN rail positions so devices of different depths, like S200 or S800 miniature circuit breakers, can be installed in perfect alignment.

Captive screw covers

Screw covers are hooked to the front panel so they can be removed without the risk of losing them.

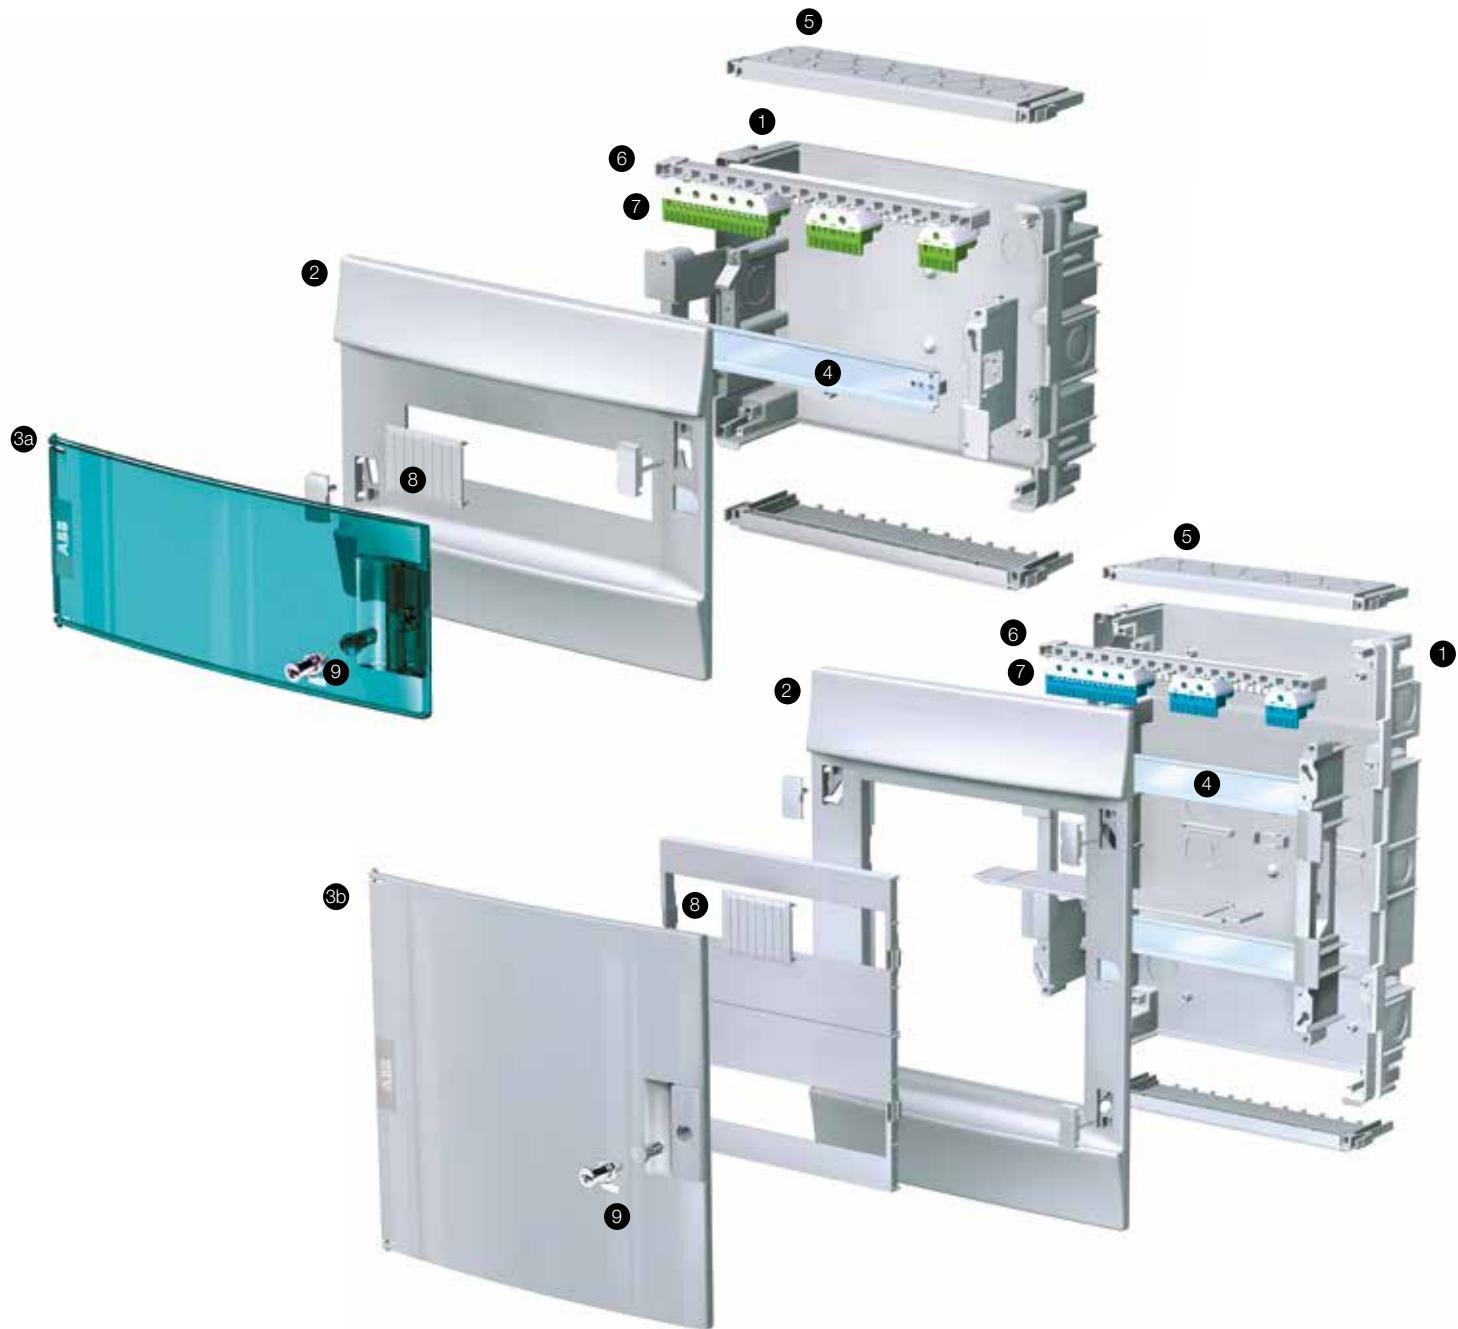

DIN rail terminals

It is possible to install an extra DIN rail at the bottom of the consumer unit.

A versatile range suitable for every application

The System pro *E* comfort MISTRAL41F series' simple construction makes the units fast and easy to assemble. What's more, their flexible design means they can be easily adapted to countless application requirements.

- 1. Base for wall mounting
- 2. Reversible cover
- 3. a) Transparent door
- b) Opaque door, RAL7035

- 4. DIN rail
- 5. Cable entry flanges
- 6. Terminal carrier
- 7. Quick coupling terminal blocks

- 8. Module cover
- 9. Finish or closure element (optional lock)

Horizontal levelling

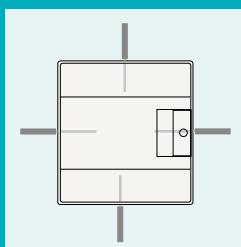

The external adjustments of the front cover assure a perfect horizontal levelling even if the consumer unit is slightly crooked.

New generations terminals

The new System pro E comfort MISTRAL® range of consumer units is supplied with a wide, completely new ABB terminal block range. Two different versions offer screw and spring fast coupling for easy and effective cabling up to 63A or 100A.

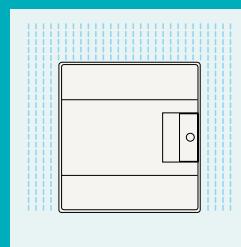

Ingress protection rating IP41

First number: 4

- Protection against contact with active or internal moving parts by external objects like tools or wires thicker than 1 mm

Second number: 1

- Protection against vertically falling drops of water e.g. condensation

System pro *E* comfort MISTRAL41W series

Create your own masterpiece

The new System pro *E* comfort MISTRAL41W series of consumer units gives installers the freedom and flexibility to implement any type of electrical distribution system in residential buildings. This wide range of wall-mounted, IP41-rated units has been designed from scratch to enhance the unique features that make ABB the leading industry standard. The units are fast and easy to install and with their elegant design they look great anywhere. What's more, ample internal space, a choice of doors and a unified range of accessories offer endless possibilities to create high-quality work installers can be proud of.

Fast and easy to be installed.
Design and simplicity "all in one".

Endless installation possibilities

Door opens up to 180° allowing full access to the interior of the unit.

Door available in two versions: petrol blue and opaque. Units without doors are also available.

Concealed rear mounts for secure wall installation.

The symmetrical design allows opening of the reversible door either from the left or from the right.

Endless installation possibilities

Invisible cable entry and exit

Pre-cut knockout slots allow cable entry and exit from the top and bottom. When not used, the slots remain invisible on the outside maintaining the consumer unit's sleek look and feel.

More than enough internal space

Lots of internal space makes cabling even easier. Cable clips and holes allow wires to be fastened to the frame with simple cable ties.

Easy installation of extra modules

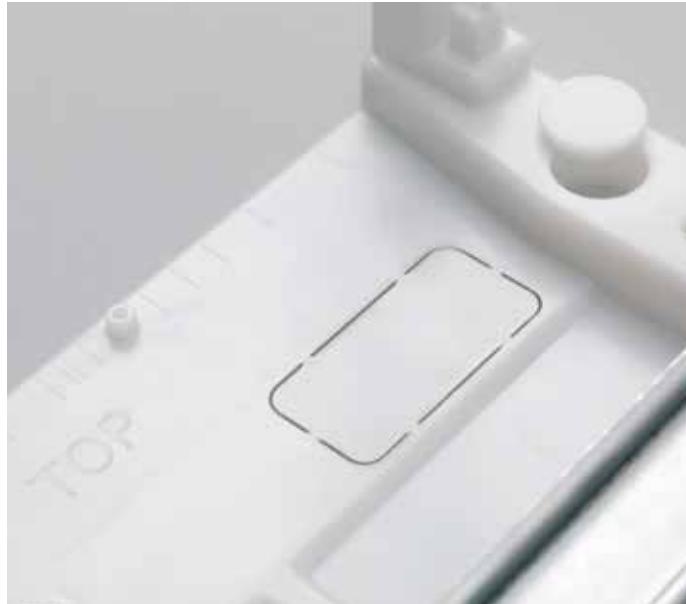

An extra module can be added by removing two pre-cut elements. This offers a quick and easy solution when unexpected additional installation is required.

Fast and tidy cabling

Various snap-on terminal blocks for N and PE connection be installed in the upper and lower part of the unit. Two versions offer screw or spring couplings.

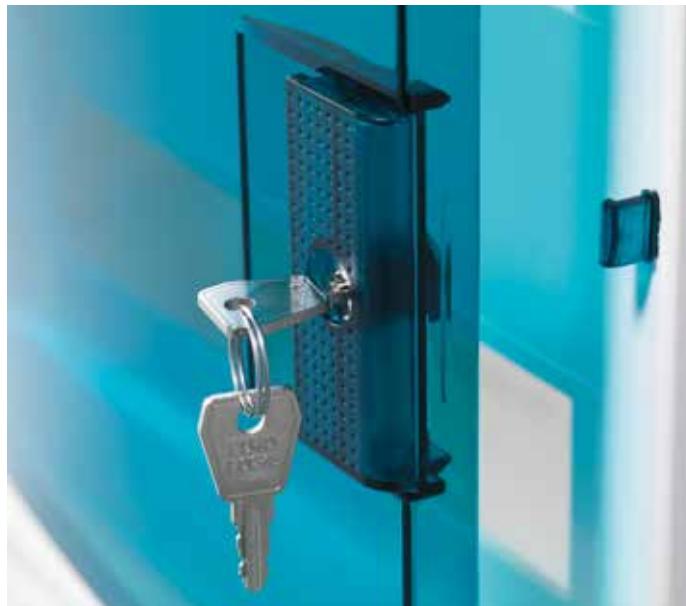

Double insulation protection

The unit housing and all accessories have been designed and developed to ensure Class II double insulation protection.

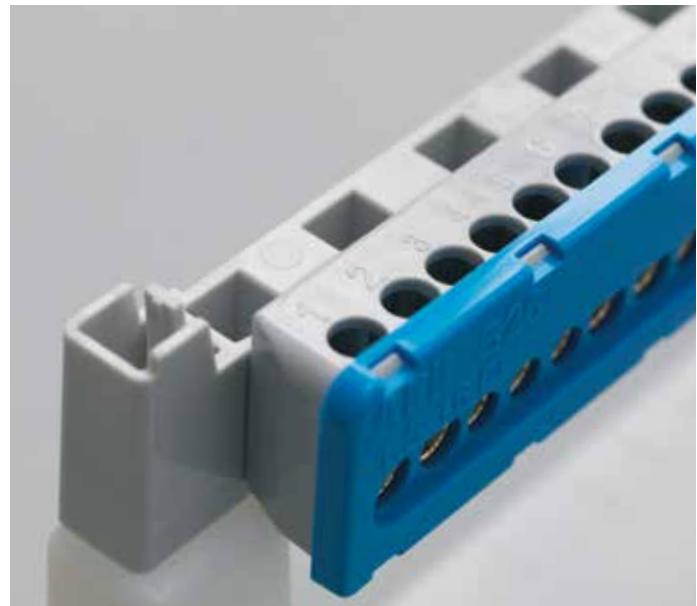

Multi-row units

Multi-row units are available with a standard distance of 125 mm between DIN rails.

Optional door lock

The standard door with ergonomic handle is available with a lock for added security.

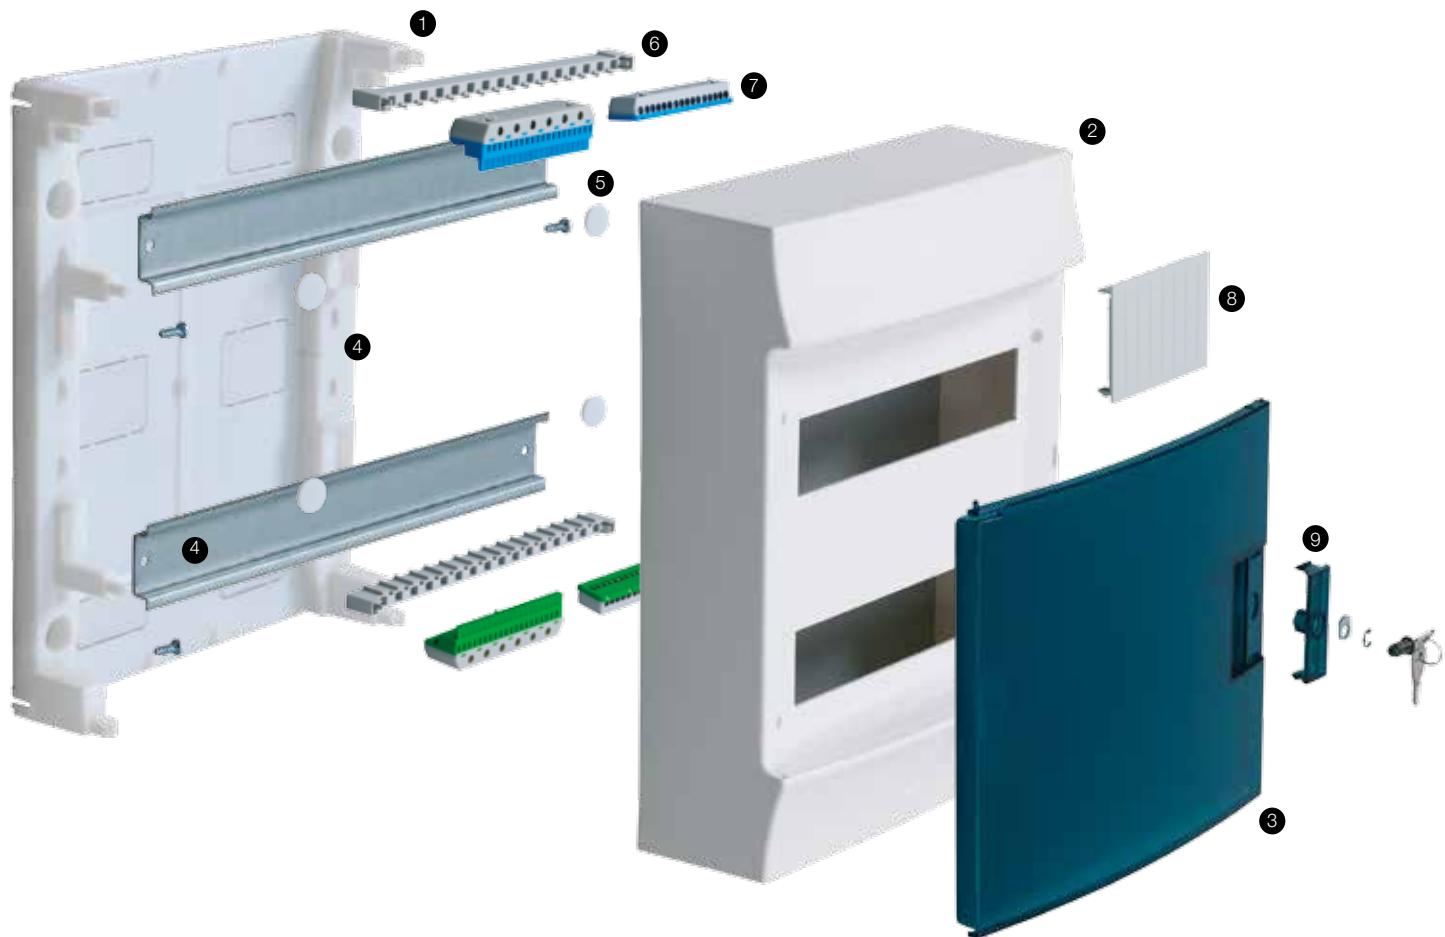

New generation terminals

The new System pro E comfort MISTRAL® range of consumer units is amended with a wide, completely new ABB terminal blocks. To different versions offer screw and spring fast coupling for easy and effective cabling up to 63A or 100A.

A versatile range suitable for every application

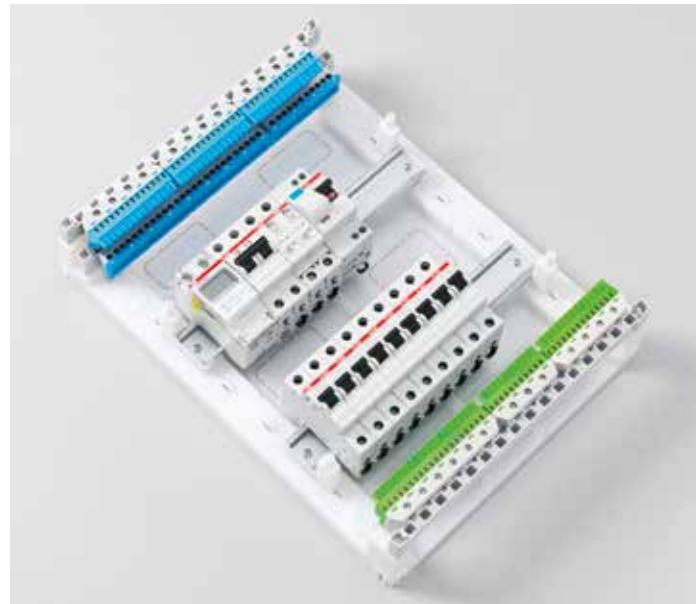

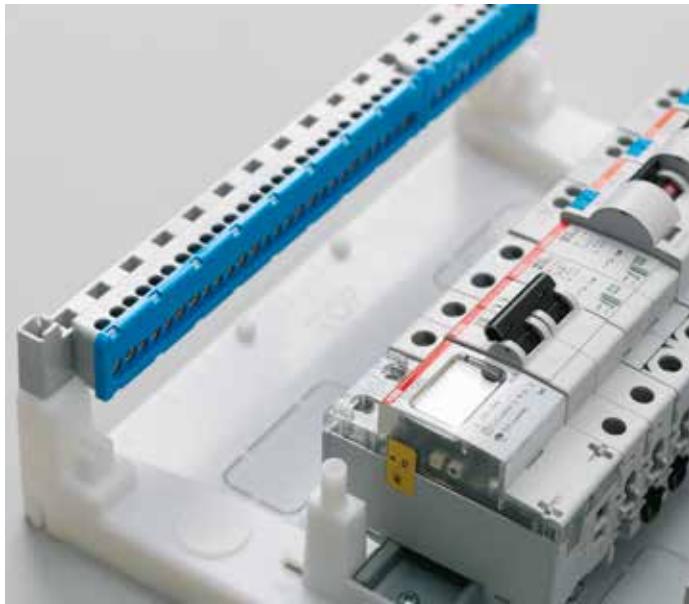

The System pro *E* comfort MISTRAL41W series' simple construction makes the units fast and easy to assemble. What's more, their flexible design means they can be easily adapted to countless application requirements.

- 1. Base for wall mounting
- 2. Reversible cover
- 3. Transparent door

- 4. DIN rail
- 5. Plugs, protection class II
- 6. Terminal carrier

- 7. Quick coupling terminal blocks
- 8. Module cover
- 9. Finish or closure element
(optional lock)

A unified range of products

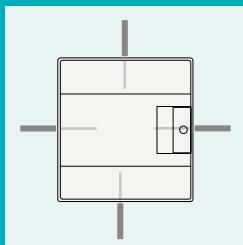

The System pro *E* comfort MISTRAL41W series is compatible with a unified range of ABB products. As a result, terminal blocks, circuit breakers, switches, surge protective devices and many other components can all be installed in the units for a wide variety of applications.

New generation terminals

A new generation of terminal blocks is available in different colours, wide range of sizes and two different connection options.

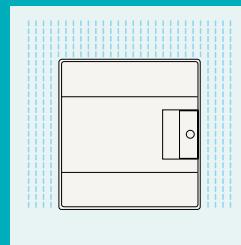

Ingress protection rating IP41

First number: 4

- Protection against contact with active or internal moving parts by external objects like tools or wires thicker than 1 mm

Second number: 1

- Protection against vertically falling drops of water e.g. condensation

Create your own masterpiece System pro *E* comfort MISTRAL65

The new System pro *E* comfort MISTRAL65 series of consumer units gives you the freedom and flexibility to install almost any kind of electrical distribution system in industrial, commercial or residential environments. These IP65-rated units have been designed from scratch to enhance the unique features you expect from ABB in terms of versatility, efficiency and safety.

Everything about the new System pro *E* comfort MISTRAL65 series has been designed to make installation easier, allowing you to set up high-quality consumer units that look great anywhere.

A point of reference.
For simplicity and
effectiveness.

Endless installation possibilities

Door opens up to 180°
allowing full access to the
interior of the unit.

Door available in two
versions: petrol blue
and opaque.

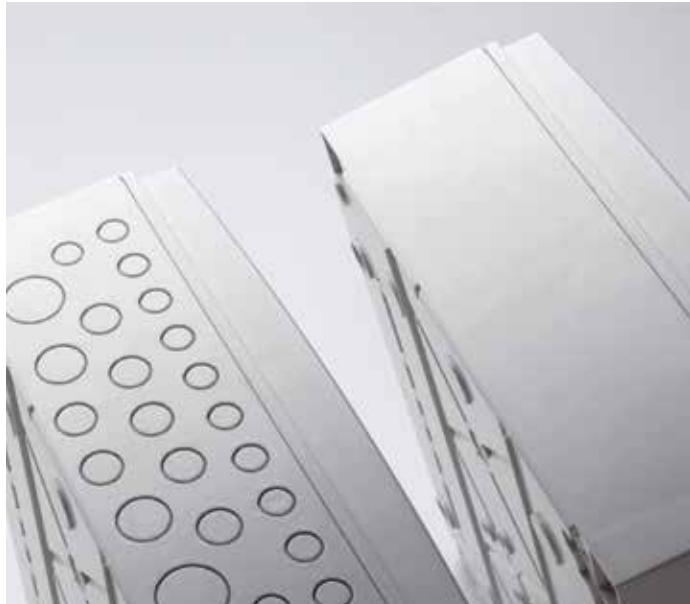

Concealed rear
mounts for secure wall
installation.

The symmetrical design
allows opening of the
reversible door either from
the left or from the right.

Endless installation possibilities

Invisible cable entry and exit

As well as side knockouts for cable entry and exit, units can be supplied with cable entries and exits at both the top and the bottom.

More internal space

Internal spaces have been created to make cabling even easier, with cable clips and holes for fastening wires to the frame with simple cable ties.

Easy installation of extra modules

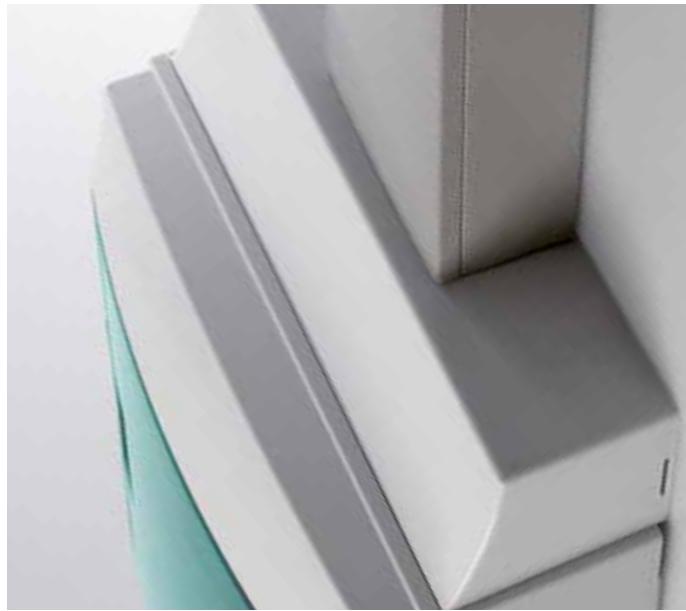

Additional modules can be installed by removing two pre-trimmed elements. This offers an easy and tidy solution when there are unforeseen installation requirements.

New generation terminals

The new System pro E comfort MISTRAL® range of consumer units is amended with a wide, completely new ABB terminal blocks. To different versions offer screw and spring fast coupling for easy and effective cabling up to 63A or 100A.

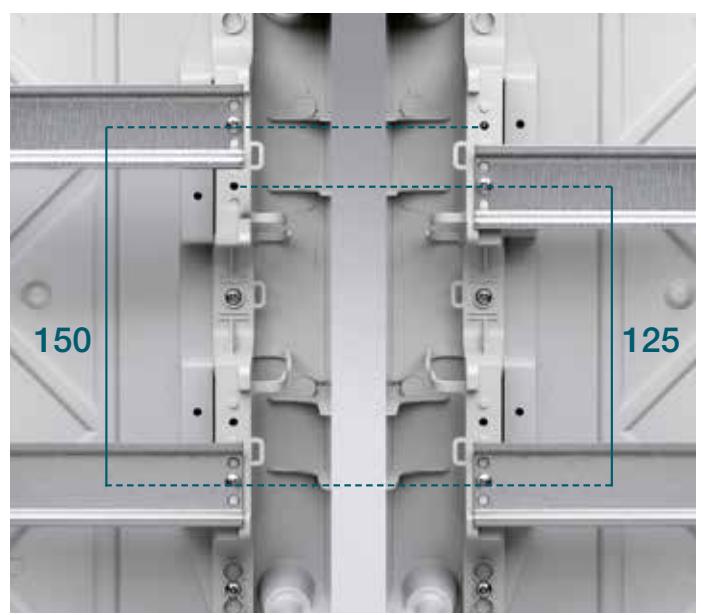

Protected trunking entry

The new polycarbonate accessory for trunking entry can be positioned at the top or bottom of the consumer unit, connecting and protecting the conductor bundles. A series of internal knockouts allows it to house any type of trunking.

Aesthetically clean installation

Interior slots allow the unit to be fixed to the wall at points that cannot be seen from the outside, making for an aesthetically clean installation. Special snap-in closure plugs guarantee class II protection (double insulation).

Optional door lock

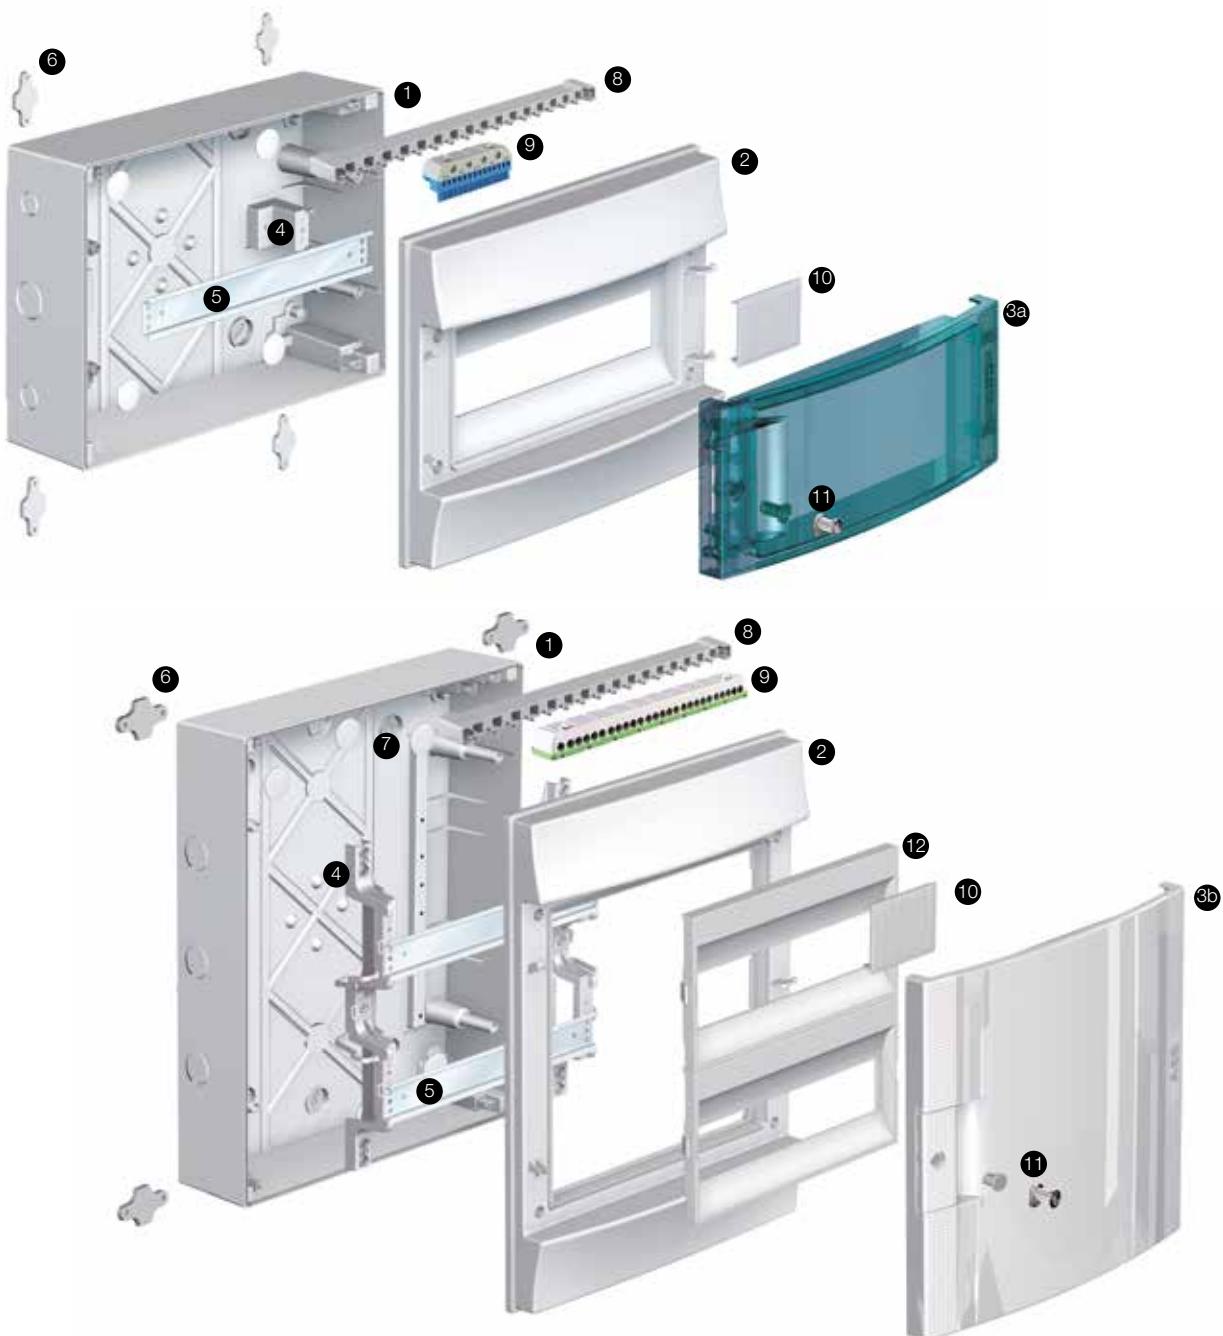

The standard door with ergonomic handle and snap-on closure can be supplied with a lock and key on request. This ensures only authorised people have access and prevents tampering or incorrect operation.

Variable distance between DIN rails

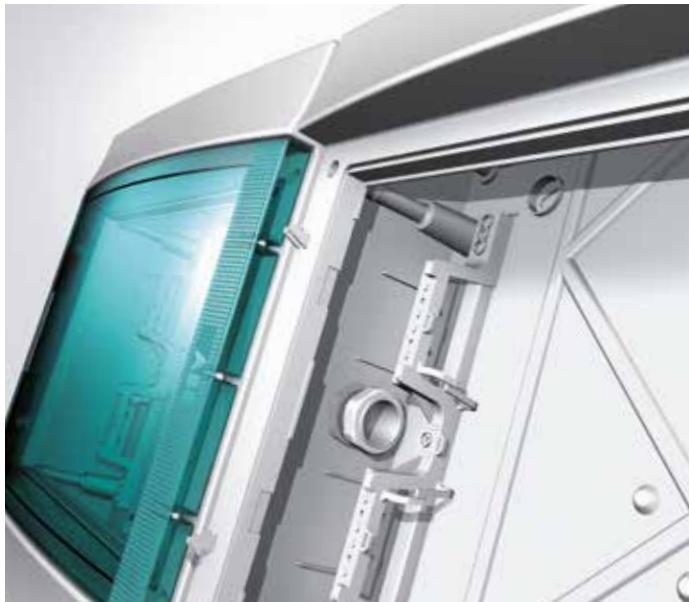

To create space at the top or bottom of the consumer unit, the central distance between the DIN rails can be modified from the standard 150 mm to 125 mm. The front panel can be removed, reversed and re-installed with a simple click.

A versatile range suitable for every application

The System pro *E* comfort MISTRAL65 series' simple construction makes the units fast and easy to assemble. What's more, their flexible design means they can be easily adapted to countless application requirements.

- | | | |
|-------------------------------|-------------------------------|---|
| 1. Box for wall mounting | 5. DIN rail | 10. Module cover |
| 2. Reversible front panel | 6. Wall fastening brackets | 11. Finish or closure elements
(lock and key optional) |
| 3. a) Transparent door | 7. Plugs, protection class II | 12 Reversible panels |
| b) Opaque door, RAL 7035 | 8. Jumper for terminals | |
| 4. Fixed support for DIN rail | 9. Quick-coupling terminals | |

Horizontal coupling

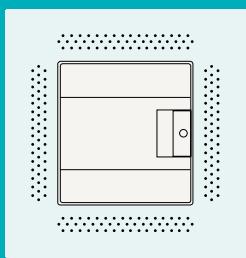

The consumer units can be installed side by side, with cable gland accessories protecting the conductors' path between adjacent units.

Blind panels for small automation application

Accessories include blind panels and base plates allowing the installation of other types of devices, in addition to modular DIN rail products, like contactors, motor starters or devices on the front of the panel.

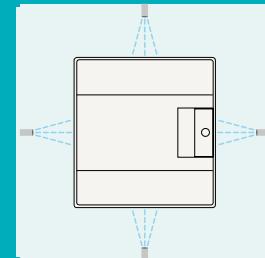

Ingress protection rating IP65

First number: 6

- Total protection against dust

Second number: 5

- Projection against water jets. Water projected by a nozzle (6.3 mm) against enclosure from any direction shall have no harmful effects.

A point of contact with the world of ABB Fully compatible with a wide range of ABB products

The new System pro *E* comfort MISTRAL65 series is designed to deliver a comprehensive range of IP65-rated consumer units with different functions and dimensions. The series is fully compatible with a unified range of ABB products. As a result, terminal blocks, circuit breakers, switches, surge protective devices and many other components can be installed for a wide variety of applications.

Two DIN positions

The frame has two DIN rail positions so accessories of different depths, like MCCBs, can be installed in perfect alignment.

Easy installation of non-standard devices

The flexibility of the frame allows easy installation of devices with above-standard depth like high-performance MCBS.

Compatible with standard modular devices

The first depth allows the installation of standard products. These include most modular devices currently on the market.

Non-modular equipment

Accessories like blind panels and base plates enable the installation of other types of devices, in addition to modular DIN products, on the front of the panel. These include control buttons and indicator lights.

Codes	1SL1210A00	1SL1211A00	1SL1212A00	1SL1213A00	1SL1214A00
Number of modules	4	8	12	18	24
Dimensions (WxHxD) in mm	152 x 202 x 117	232 x 250 x 154	320 x 250 x 155	430 x 250 x 155	320 x 435 x 155
Colour	RAL 7035 grey				
Door type	Transparent	Transparent	Transparent	Transparent	Transparent
Protection class	II □				
Fire resistance	GWT 750°C				
Material	Thermoplastic	Thermoplastic	Thermoplastic	Thermoplastic	Thermoplastic
Resistance to mechanical impacts	IK09	IK09	IK09	IK09	IK09
Knockout resistance to mechanical impacts	IK08	IK08	IK08	IK08	IK08
Installation temperature	-25°C / +60°C				
Resistance to heat	BPT 70°C				
IP rating	IP65	IP65	IP65	IP65	IP65
Max. dissipation power	12 W	20 W	27 W	32 W	34 W
Maximum current	63A	63A	63A	125A	125A
Extractable frame	no	no	no	no	yes
Additional module	no	no	yes	yes	yes
Installation of MCCBs	no	yes	yes	yes	yes
DIN rail centre distance	-	-	-	-	150 - 125 (mm)
Halogen free	no	no	no	no	no
Cable entry finish	Precut	Precut	Precut	Precut	Precut
