**Enabling the worlds largest petrochemical complex  
ever built in a single phase with ABB Ability™.**

**20 Billion**

Petrochemical project located  
in Saudi Arabia

**\$1 Billion**

worth of supply

Global engineering interfacing  
over 15 different EPC companies

**64** Control centers provide  
ergonomic HMI for maximum  
productivity across plant  
assets

**3 million**

metric tons of capacity per year  
generating \$10 billion in sales revenue

**19** distributed  
control systems over

**150,000 I/Os**

A single distributed control system  
to run more than **50** fully  
automated production lines
