

Stanilite®

DALI control unit

Range

Non-standard range

Product group

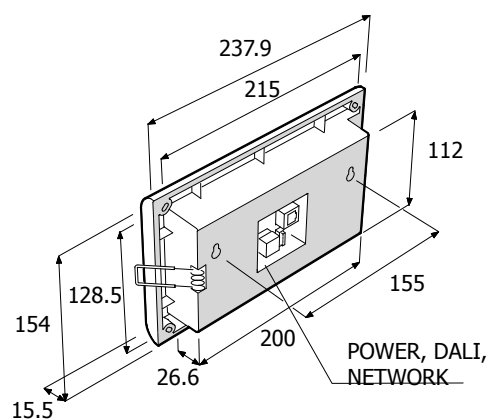

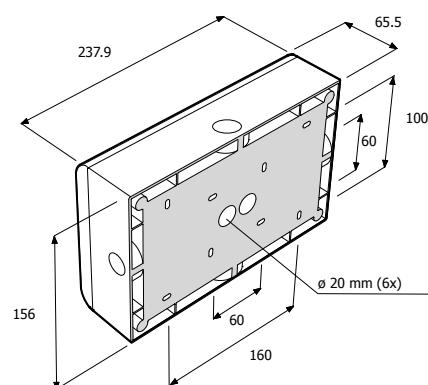

DALI emergency lighting

Features

- 7" touch screen technology
- Central control
- Report logging software
- Minimised disruption with automatic pre-programmed tests
- Functional and full duration tests
- Uses international standard DALI emergency lighting protocol
- 2 x built-in DALI lines allow for 128 DALI devices
- External status control
- Smooth graphical interface for client operation
- Easy, system driven, DALI addressing and grouping
- Individual indication of groups and devices
- Calendar-controlled function and service life test
- Easily read system status
- Simple download of test report to a PC or laptop

Catalogue no.	Description
DALI products	
ELDCS1/DALI	DALI emergency control unit

Dimensions		
Length	Width	Height
213mm	35mm	150mm

Note: Including surface mount housing

Cut out size	
Length	Height
198mm	117mm

Weight	
Model	Weight
DALI	1.1kg

Construction	
Part	Construction
Body	Polycarbonate
Glass	Touch screen glass

Input voltage		
	Model	Input voltage
	DALI	220-240 Vac, 50Hz
Power consumption		
	Model	Power consumption
	DALI	6.0W
Environment temperature		
	Model	Temperature
	DALI	0 - 50°C

Note:

- The manual, pre-commissioning documents, device location record sheet, test record sheet and download software for spreadsheet are available on the ABB low voltage website
- Designed to comply with AS2293 and meet relevant Australian EMC standards
