

Protection you can count on

The robust, reliable and responsive naval power solution

Emax 2 ML and Tmax XT ML circuit breakers build on ABB's long experience in naval and maritime applications. Certified in accordance with RINA MIL and highly impact resistant. Designed and equipped to save space and weight on board. Moreover, with ABB's software embedded, the Emax 2 ML identifies faults faster using a unique and advanced logic zone selectivity solution. Maximize your power system availability with Emax 2 ML and Tmax XT ML.
