

Smarter Mobility

For transport of the future, today

In 2017 there were more than 2 million electric vehicles worldwide and the market is growing, with electric car stock set to range between 9–20 million and 50% of new buses in Europe to be electric from 2020 onwards. Electric vehicles require power, and ABB offers a total solution, from reliable DC fast charging stations for cars to innovative on-demand electric bus charging systems.

10–12 minutes charging time

for 300 extra kilometers

3–6 minutes re-charging time for buses

2.6 million tons less **co**₂ per year, equivalent to about 10 million cars

ABB has years of experience in creating, installing and maintaining charging infrastructure, including several nationwide charger networks. We are laying the foundations for a future of smarter, reliable, and emission-free mobility, accessible by everyone, everywhere.
