310

Offering
Wiring and Cabling
Equipment

What we do in Athens

Design and manufacture wiring and cable management equipment for homes, buildings, industrial facilities, and public infrastructure. With over 250 million pieces of electrical equipment produced each year in Athens, our metal and plastic conduits, framing and trays, and boxes manage the wires and cables hidden behind building walls. Well-known brands in the industry like Steel City, Kindorf, Ty-Duct, and others are made in Athens.

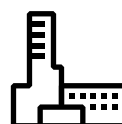

Who we serve

Wiring and cable management products manufactured in Athens are available in hardware stores, through electrical distributors, and are used by elec-

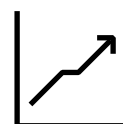

trical contractors coast to coast to wire and electrify residential and commercial buildings, industrial facilities, and more.

ABB in the U.S.

ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization, increasing productivity and boosting efficiency.
