Location

5601 E. Highland Drive,
Jonesboro, AR
72401

Operational since

1994

Number of employees
350

Offering
Electrical Wiring
& Cable Management

What we do in Jonesboro

Design and manufacture wiring and cable management equipment for corrosive, industrial, and infrastructure environments as well as for homes and buildings. Our products are used by manufacturers and electrical contractors to ensure safe electrical connections in the toughest environments.

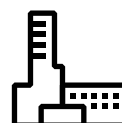

Who we serve

ABB's Ocal® corrosive resistant conduits protect wiring in food processing plants, waste-water treatment plants and oil and gas wells and refineries. Similarly, our Liquidtight Systems™ protect metal cabling in subways and tunnels and electrical wiring in

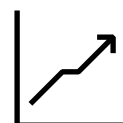

pharmaceutical and sterile facilities, where hygiene is paramount and equipment must be washed down. Our Carlon® fittings and elbows are available in hardware stores nationwide to ensure reliable and safe electrical systems in homes and businesses.

ABB in the U.S.

ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization, increasing productivity and boosting efficiency.
