Offering Industrial Electric Motors

What we do in Ozark

Manufacture AC industrial electric motors ranging from 7.5 to 30 horsepower. Ozark produces 100,000 motors per year, which are used in a wide variety of industrial applications, including pumps, fans, compressors, conveyors and other industrial applications. ABB's Ozark facility received the Plant Services Magazine, Plant of the Year award in 2008.

Who we serve

The electric motors produced in Ozark are used in a broad range of industries and manufacturing including agriculture, food and beverage, mining and aggregate, minerals, chemicals, and conveying. Original equipment manufacturers (OEMs) use motors
