155

Offering
Instrumentation
& Control Systems

What we do in Warminster

Our instrumentation and analytical products, and control system solutions support customers in many process industries. Our products add value through energy efficiency, productivity, monitoring, quality, regulatory compliance and safety. Our goal is to make selection, purchasing, installation, operation, and ownership easy for customers. Our expertise in technology and measurement products and control applications ensures efficient and cost effective solutions.

Who we serve

Manufacture and assemble instrumentation equipment and analytical and valve automation products.

Warminster also houses an instrument calibration lab and product support teams. Instruments made in Warminster measure flow, level, pressure, and temperature which enable control and automation of a variety of industrial and commercial processes.

ABB in the U.S.

ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization, increasing productivity and boosting efficiency.
