

Westerville, Ohio

Facility Overview

What we do in Westerville

Westerville serves as ABB's U.S. Center of Excellence for Quality Control Systems and provide sales and technical support as well as project execution, on-going support and service, and parts distribution to manufacturing facilities that use ABB automation and control systems. This includes, 24/7 remote monitoring of their facilities and customer service. From Westerville, we can detect and diagnose maintenance and operational challenges, craft solutions, and walk our customers through implementations that can boost plant efficiency, improve up-time, and resolve maintenance issues.
