FAIR BASIS OF DEMERGER

We understand that, as part of the Scheme, PG division of ABB India is proposed to be demerged into ABB Power. It can be seen that ABB Power is not engaged in any operations and ABB India holds 100% shares of ABB Power. The Scheme provides for suitable increase of authorized share capital to issue shares to shareholders of ABB India. Once the Scheme is implemented, all the shareholders of ABB India would also become the shareholders of ABB Power, and their shareholding in ABB Power would mirror their shareholding in ABB India. The effect of the demerger is that each shareholder of ABB India becomes the owner of shares in two companies instead of one company either directly, or, in case of fractional entitlements, through a Trust mechanism, as explained in the Scheme.

Based on the above provision in the Scheme, the percentage holding of a shareholder in ABB (post the demerger) and in ABB Power would remain unchanged from the proportion of capital held by such shareholder in ABB India (either directly, or, in case of fractional entitlements, through a Trust mechanism, as explained in the Scheme).

Given the above context, any entitlement ratio can be considered fair for the above demerger including the entitlement ratio proposed below.

Basis of Demerger

In arriving at the share entitlement ratio, we have considered the internationally accepted approaches to valuation. Of the three internationally accepted approaches to valuation, namely Income approach, Market approach and Asset approach, the Asset approach (Net Asset Value method) is the most appropriate for arriving at share entitlement ratio in demerger, being primarily used for determining the capital structure of the resulting and demerged entities. Hence, the NAV method has been considered here.

The ratio as arrived by NAV method has been suitably modified to avoid/reduce fractional holding as much as possible.

Net Asset Value Ratio

Particulars	PG division	Non-PG division	ABB India
NAV (Based on Balance Sheet as at 31 December 2018) (₹ mn)	6,794.9	33,278.2	40,073.1
% of ABB India	17.0%	83.0%	100.0%
Number of shares (mn)			211.9

Note: Management has informed us that there were no material changes in the balance sheet position between 31 December 2018 and 5 March 2019.

Considering that, under the demerger, shareholders will be issued shares for, and not in exchange of their shareholding in ABB India, an entitlement ratio based on NAV would be 1:4.9. However, as this would lead to significant fractional holdings, we have rounded up to 1:5.

S R B C & COLLP

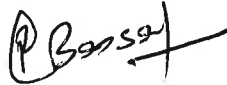

Chartered Accountants

CONCLUSION

In the light of the above and on a consideration of all the relevant factors and circumstances, we recommend a ratio of **1 (One)** equity shares of INR 2 each fully paid up of ABB Power for, not in exchange of but in addition to, every **5 (Five)** equity shares of ABB India of INR 2 fully paid up.

It should be noted that we have examined the share entitlement ratio for the Proposed Demerger and not examined any other matter including economic rationale for the demerger per se or accounting, legal or tax matters involved in the Proposed Demerger.

Yours faithfully,

6. Procedures Adopted in Recommending Share Entitlement Ratio

In connection with this exercise, we have adopted the following procedure in recommendation of share entitlement ratio:

- Discussion with ABB India to:
 - Understand the business and fundamental factors that affect its income-generating capability including strengths, weakness, opportunity and threat analysis and historical financial performance of the Power Grids Division
 -
- Undertook Industry Analysis:
 - Research publicly available market data that may impact the share entitlement ratio; and
 - Other publicly available information.
- Analysis of information.

7. Recommendation of Share Entitlement Ratio

From the discussions with the management and from proposed Demerger Scheme to be filed with the authorities, we have observed as under:

- a) ABB Power is the wholly owned subsidiary of ABB India;
- b) upon the draft scheme becoming effective, shareholders of ABB India would be entitled to shares in ABB Power in the same proportion in which they own shares in ABB India (either directly, or, in case of fractional entitlements, through a Trust mechanism, as explained in the Scheme);
- c) upon the draft scheme becoming effective, the beneficial economic interest of the shareholders of ABB India in the paid-up equity share capital of ABB Power would be the same as it is in the paid-up equity share capital of ABB India (either directly, or, in case of fractional entitlements, through a Trust mechanism, as explained in the Scheme);
- d) The equity shares held by ABB India and its nominees in ABB Power will be cancelled upon the draft scheme becoming effective.
- e) The determination of share entitlement ratio would not impact the ultimate value for the shareholders of ABB India and the proposed demerger of the PG division of ABB India into ABB Power will be value neutral to ABB India's shareholders (either directly, or, in case of fractional entitlements, through a Trust mechanism, as explained in the Scheme).

B. B. & Associates

Chartered Accountants

Therefore, the determination of share entitlement ratio in the instant case is at best an internal arrangement between ABB India, its shareholders and ABB Power and a detailed valuation of the companies to determine the share entitlement ratio would not be relevant in the present case.

In such a situation, we may use the ratios of Net Asset Value ("NAV") of PG division and Non-PG division for computing share entitlement ratio. Further, the ratio may be adjusted to avoid/minimise any fractional holding. We have computed the net assets value ratio as under:

Net Asset Value Ratio

Particulars	PG division	Non-PG division	ABB India
NAV (based on Balance Sheet as at 31 December 2018) (Rs in million)	6,794.9	33,278.2	40,073.1
% NAV	17.0%	83.0%	100.0%
Number of shares (mn)	211.9		

Note: The management of ABB India has represented us that there were no material changes in the balance sheet position between 31 December 2018 and 4 March 2019.

Based on the aforesaid discussion, considering that all shareholders of ABB India are and will, upon demerger, become shareholders of ABB Power, holding beneficial economic interest in the same proportion as they hold in ABB India except in the case of shareholders who would have fractional entitlement, ABB Power may consider issuing one equity share of ABB Power against 4.90 shares held in ABB India. However, to avoid fractional holdings, we recommend that 1 (one) fully paid up equity share of face value of Rs 2/- each of ABB Power should be issued for each every 5 (five) fully paid up equity shares of face value of Rs 2/- each held in ABB India. It is re-emphasized that economic interest of the shareholders is not impacted even when share of ABB Power is issued in the ratio of 5:1, instead of 4.9:1.

8. Justification of Recommended Share Entitlement Ratio

The recommended share entitlement ratio will not impact the proportionate interest owned by shareholders of ABB India in the net book value of the assets of ABB India and ABB Power.

Pre-demerger

The net book value of the assets owned by a shareholder holding one equity share of Rs 2 of ABB India (prior to demerger) can be computed as under:

Particulars	ABB India (pre-demerger)
Net Asset Value (as on 31 December 2018) (in Rs millions) (refer annexure 1)	40,073.08
Number of shares (in millions)	211.91
Net Asset Value per share (in Rs)	189.11

Therefore, the shareholder holding one equity share of Rs 2 of ABB India (prior to demerger) owns interest in the net assets value of Rs 189.11.

Post-demerger

The net book value of the assets owned by a shareholder holding one equity share of Rs 2 of ABB India (post demerger) and that owned by a shareholder holding 1 equity share of Rs 2 of ABB Power can be computed as under:

Particulars	Non-PG (post demerger)	ABB Power (post demerger)
Net Asset Value (as on 31 December 2018) (in Rs millions) (refer annexure 2 & 3)	33,278.15	6,794.86
Number of shares (in millions)	211.91	42.38
Net Asset Value per share (in Rs)	157.04	160.33

B. B. & Associates

Chartered Accountants

A shareholder holding one equity share of Rs 2 of ABB India (prior to demerger) shall hold (I) one equity share of Rs 2 each of ABB India; and (ii) 0.2 share of Rs 2 each of ABB Power, in view of recommended share entitlement ratio.

Accordingly, the shareholder holding one equity share of Rs 2 of ABB India (prior to demerger) would continue to own net assets value of Rs 189.11 computed as under:

Company	Amount
Net Asset Value of one equity share of ABB India Limited (Post demerger)	157.04
Net Asset Value of 0.2 equity share of ABB Power Products and Systems India Limited (Post demerger)	32.07
Total	189.11

Accordingly, it is evident that aforesaid share entitlement ratio is fair to each of the shareholders of ABB India.

9. Conclusion

Based on the foregoing, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, pursuant to demerger of PG division of ABB India into ABB Power, we recommend the following share entitlement ratio for consideration by ABB Power to the shareholders of ABB India:

"1 (One) equity share of INR 2 each fully paid up of ABB Power for, not in exchange of but in addition to, every 5 (five) equity shares of INR 2 fully paid up held in ABB India"

6. Procedures Adopted in Recommending Share Entitlement Ratio

In connection with this exercise, we have adopted the following procedure in recommendation of share entitlement ratio:

- Discussion with ABB India to:
 - Understand the business and fundamental factors that affect its income-generating capability including strengths, weakness, opportunity and threat analysis and historical financial performance of the Power Grids Division
 -
- Undertook Industry Analysis:
 - Research publicly available market data that may impact the share entitlement ratio; and

- Analysis of information.

7. Recommendation of Share Entitlement Ratio

From the discussions with the management and from proposed Demerger Scheme to be filed with the authorities, we have observed as under:

- a) ABB Power is the wholly owned subsidiary of ABB India;
- b) upon the draft scheme becoming effective, shareholders of ABB India would be entitled to shares in ABB Power in the same proportion in which they own shares in ABB India (either directly, or, in case of fractional entitlements, through a Trust mechanism, as explained in the Scheme);
- c) upon the draft scheme becoming effective, the beneficial economic interest of the shareholders of ABB India in the paid-up equity share capital of ABB Power would be the same as it is in the paid-up equity share capital of ABB India (either directly, or, in case of fractional entitlements, through a Trust mechanism, as explained in the Scheme);
- d) The equity shares held by ABB India and its nominees in ABB Power will be cancelled upon the draft scheme becoming effective.
- e) The determination of share entitlement ratio would not impact the ultimate value for the shareholders of ABB India and the proposed demerger of the PG division of ABB India into ABB Power will be value neutral to ABB India's shareholders (either directly, or, in case of fractional entitlements, through a Trust mechanism, as explained in the Scheme).

Therefore, the determination of share entitlement ratio in the instant case is at best an internal arrangement between ABB India, its shareholders and ABB Power and a detailed valuation of the companies to determine the share entitlement ratio would not be relevant in the present case.

In such a situation, we may use the ratios of Net Asset Value ("NAV") of PG division and Non-PG division for computing share entitlement ratio. Further, the ratio may be adjusted to avoid/minimise any fractional holding. We have computed the net assets value ratio as under:

Net Asset Value Ratio

Particulars	PG division	Non-PG division	ABB India
NAV (based on Balance Sheet as at 31 December 2018) (Rs in million)	6,794.9	33,278.2	40,073.1
% NAV	17.0%	83.0%	100.0%
Number of shares (mn)	211.9		

Note: The management of ABB India has represented us that there were no material changes in the balance sheet position between 31 December 2018 and 4 March 2019.

Based on the aforesaid discussion, considering that all shareholders of ABB India are and will, upon demerger, become shareholders of ABB Power, holding beneficial economic interest in the same proportion as they hold in ABB India except in the case of shareholders who would have fractional entitlement, ABB Power may consider issuing one equity share of ABB Power against 4.90 shares held in ABB India. However, to avoid fractional holdings, we recommend that 1 (one) fully paid up equity share of face value of Rs 2/- each of ABB Power should be issued for each every 5 (five) fully paid up equity shares of face value of Rs 2/- each held in ABB India. It is re-emphasized that economic interest of the shareholders is not impacted even when share of ABB Power is issued in the ratio of 5:1, instead of 4.9:1.

8. Justification of Recommended Share Entitlement Ratio

The recommended share entitlement ratio will not impact the proportionate interest owned by shareholders of ABB India in the net book value of the assets of ABB India and ABB Power.

Pre-demerger

The net book value of the assets owned by a shareholder holding one equity share of Rs 2 of ABB India (prior to demerger) can be computed as under:

Particulars	ABB India (pre-demerger)
Net Asset Value (as on 31 December 2018) (in Rs millions) (refer annexure 1)	40,073.08
Number of shares (in millions)	211.91
Net Asset Value per share (in Rs)	189.11

Therefore, the shareholder holding one equity share of Rs 2 of ABB India (prior to demerger) owns interest in the net assets value of Rs 189.11.

Post-demerger

The net book value of the assets owned by a shareholder holding one equity share of Rs 2 of ABB India (post demerger) and that owned by a shareholder holding 1 equity share of Rs 2 of ABB Power can be computed as under:

Particulars	Non-PG (post demerger)	ABB Power (post demerger)
Net Asset Value (as on 31 December 2018) (in Rs millions) (refer annexure 2 & 3)	33,278.15	6,794.86
Number of shares (in millions)	211.91	42.38
Net Asset Value per share (in Rs)	157.04	160.33

B. B. & Associates

Chartered Accountants

A shareholder holding one equity share of Rs 2 of ABB India (prior to demerger) shall hold (i) one equity share of Rs 2 each of ABB India; and (ii) 0.2 share of Rs 2 each of ABB Power, in view of recommended share entitlement ratio.

Accordingly, the shareholder holding one equity share of Rs 2 of ABB India (prior to demerger) would continue to own net assets value of Rs 189.11 computed as under:

Company	Amount
Net Asset Value of one equity share of ABB India Limited (Post demerger)	157.04
Net Asset Value of 0.2 equity share of ABB Power Products and Systems India Limited (Post demerger)	32.07
Total	189.11

Accordingly, it is evident that aforesaid share entitlement ratio is fair to each of the shareholders of ABB India.

9. Conclusion

Based on the foregoing, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, pursuant to demerger of PG division of ABB India into ABB Power, we recommend the following share entitlement ratio for consideration by ABB Power to the shareholders of ABB India:

“1 (One) equity share of INR 2 each fully paid up of ABB Power for, not in exchange of but in addition to, every 5 (five) equity shares of INR 2 fully paid up held in ABB India”

otherwise effect transactions, for its own account or the accounts of customers, in debt or equity securities or senior loans of any company that may be involved in the Scheme.

Our Recommendation

The effect of the Scheme is that each shareholder of the Transferor Company becomes the beneficial economic owner of the shares in the Transferee Company, in the same proportion, either directly, and/or in case of fractional entitlements, through a Trust mechanism, as explained in the Scheme.

Based on the above, all the current shareholders of the Transferor Company are and will, upon demerger, be the ultimate beneficial economic owners of the Transferee Company upon allotment of equity shares by the Transferee Company in the proposed Share Entitlement Ratio.

As stated in the Share Entitlement Report by S R B C & CO LLP and B.B. & Associates, they have recommended the following:

"1 (One) equity share of face value and paid-up value of Rs. 2 (Two) each of the Transferee Company credited as fully paid up be allotted for every 5 (Five) equity shares of the Transferor Company"

The aforesaid Demerger shall be pursuant to the Scheme and shall be subject to receipt of approval from National Company Law Tribunal or such other competent authority as may be applicable and other statutory approvals as may be required. We have issued the Fairness Opinion with the understanding that the Scheme provided to us shall not be materially altered and the parties hereto agree that the Fairness Opinion would not stand good in case the final Scheme of Arrangement alters the transaction.

As per the Scheme, having regard to all relevant factors and on the basis of information and explanations given to us, including the Share Entitlement Ratio Report, we are of the opinion on the date hereof, that the proposed Share Entitlement Ratio as recommended by S R B C & CO LLP and B.B. & Associates is fair to the equity shareholders of Transferor Company.

We conducted our review in accordance with the Standard on Review Engagement (SRE) 2410, "*Review of Interim Financial Information Performed by the Independent Auditors of the Entity*", specified under section 143 (10) of the Companies Act, 2013. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial results are free of material misstatements. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement of unaudited financial results prepared in accordance with applicable accounting standards i.e. Ind AS prescribed under Section 133 of the Companies Act, 2013, and other recognized accounting practices and policies has not disclosed the information required to be disclosed in terms of Regulation 33 of the Listing Regulations including the manner in which it is to be disclosed, or that it contains any material misstatement.

Pursuant to Section 96 of the Companies Act, 2013, the Company being a newly incorporated Company, has time until December 31, 2020 to hold its first annual general meeting where the first financial statements of the Company shall be placed. Accordingly, the Company has not prepared audited financial statements for the period between February 19, 2019 till March 31, 2019.

Further, the Company does not have any subsidiaries for consolidation purposes.

INTERNAL RISK FACTORS

- 1. The Company is newly incorporated and does not possess experience in operating the PG Business post-effectiveness of the Scheme.**

The Company is a newly incorporated company and it does not have any experience in operating the PG Business. While post-effectiveness of the Scheme, experienced personnel in the PG Business will be transferred to the Company, the company may be unable to effectively integrate the PG Business, and efficiently operate the business of the Company, thereby adversely impacting the results of the Company's operations and profitability of the business. Additionally, upon completion of the Scheme, INABB will be required to effect transfer of, inter alia, properties, approvals, employees and intellectual property of the PG Business to our Company. Any inability to effect such transfers in a timely manner may materially impact the ability of the Company to commence and undertake business operations, in compliance with applicable laws.

- 2. There is no guarantee that the necessary approvals and sanctions for completion of the Scheme will be received in time.**

The completion of the Scheme is subject to receipt of various approvals, including from shareholders and creditors of INABB and the Company, regulatory authorities and the NCLT. In the event that these approvals are not received, INABB may be unable to effect the transfer of the PG Business to the Company, which will result in the Company's inability to commence business operations as envisaged.

- 3. The audited financial position of the Company would be available only after the completion of the first annual general meeting of the Company, post-effectiveness of the Scheme.**

Pursuant to the Scheme, both assets and liabilities of the PG Business of INABB shall be transferred to the Company. However, the audited financials of the Company shall be available to investors only after the first annual general meeting, post-effectiveness of the Scheme. Accordingly, during the interim period, investment decisions in relation to the Company shall have to be based on interim unaudited financial statements or previous financial information of the PG business being demerged from INABB.

- 4. There is no guarantee that the Equity Shares will be listed on the Stock Exchanges in a timely manner or at all. Further, once listed, there is no guarantee that there will be a liquid market for the Equity Shares.**

In accordance with Indian law, permission for listing and trading of Equity Shares will not be granted until after certain actions have been completed in relation to the issue and until the allotment of the Equity Shares pursuant to the Scheme. The Company cannot assure you that it will be able to list the Equity Shares. Further, there is no public market for the Equity Shares prior to the allotment and an active public market for the Equity Shares may not develop or sustain after the allotment of Equity Shares. Listing of the Equity Shares does not guarantee that a trading market for the Equity Shares will develop. Accordingly, prospective shareholders should be prepared to hold their Equity Shares for an indefinite period of time.

- 5. Changes in government policies and other macro-economic factors can adversely impact the Company's business.**

Changes in the government policies and other macro-economic factors including a slowdown in government investments in the power sector, any significant reductions in incentives for renewable energy expansion in India, poor financial health of the transmission and distribution sector and State Electricity Boards, unfavorable terms and conditions of government contracts, as revised from time to time etc. can impact the Company's business and operations.

- 6. The power grids industry is intensely competitive and post-effectiveness of the Scheme, our inability to compete effectively may adversely affect the PG Business, results of operations and financial condition.**

The power grids business is highly competitive. Post-effectiveness of the Scheme, our competitors in the power grids business may succeed in developing products/services that are more effective, popular or cheaper than the Company's, which may render the Company's products uncompetitive and adversely affect our business, results of operations and financial condition of the Company.
