Box covers are made of recycled plastic

Old

New

Box covers are made from plastic packaging collected from households. Post-consumer waste is material discarded after someone uses it.

The collected plastic is processed locally from plastic waste to recycled plastic. The recycled plastic granulate is delivered to ABB's Porvoo factory, where it is made into lids for installation boxes.

Environmentally friendly

To ensure sustainable in our box covers, we use color pigment as little as possible. This may cause the color to vary depending on the manufacturing batch.

The change applies to the following products:

System ABB boxes	Type	EAN	Description
	AS32	6438199001746	Protective cover for white AU range mounting boxes
	AU3.2	6410011523643	Mounting box
	AU5.2	6410011523032	Mounting box, branched 2-way
	AU5.32	6418677335068	High mounting box, 73 mm
	AU3.32	6410011523674	Brick wall mounting box
	AU3.24	6438199002927	Mounting box + extension ring 12 mm
	AU6.2	6410011523155	Low mounting box, height 38 mm, branched 2-way

System IDEAL boxes	Type	EAN	Description
	AU60.1	6418677334788	Mounting box for 12-13/24-26 mm board
	AU60.5	6438199003405	Mounting box for 12-13/24-26 mm board
	AU5.6	6438199005027	Mounting box for 13-27 mm board
	AU67	6418677332340	Junction box for 12-13/24-26 mm board
	AU70	6418677332357	Junction box for 13/26 mm board
