

Welcome to Board Support Package UN30 V2.31

General

This README file contains important information about the Board Support Package (BSP) UN30. Please read this file carefully and completely. It contains the latest information and relevant documentation.

How to install BSP UN30

- Copy the UN30_autoupdate_231.zip content to an empty USB stick
- Extract the files of the zip file directly onto the USB stick
- plug USB stick in the HMI (Human Machine Interface)
- tool will ask to reboot HMI letting USB stick plugged
- HMI will start and automatic procedure will be displayed on the screen
- when a blank page (without any text inside) is displayed, press the X to close the window
- information about update are displayed. Tool inform to unplug USB stick and reboot the device

Products, BSP UN30 is dedicated for		Version
Product (HMI)	Order code	
CP651	1SAP551100R0001	V2.31
CP651-WEB	1SAP551200R0001	V2.31
CP661	1SAP561100R0001	V2.31
CP661-WEB	1SAP561200R0001	V2.31
CP665	1SAP565100R0001	V2.31
CP665-WEB	1SAP565200R0001	V2.31
CP676	1SAP576100R0001	V2.31
CP676-WEB	1SAP576200R0001	V2.31
New features		
---		V2.31
Known problems		
BACnet communication driver is not supported		V2.31
