Webinar duration

The duration is 1.5 hour.

Course type

This is a webinar led by an instructor.

Course goal

To show how the software DOC works in order to design electrical installations, including both low-voltage and medium-voltage systems, selecting the most appropriate solution.

Student profile

The webinar is intended for ABB employees (technicians, sales engineers and product managers) and customers.

Prerequisites and recommendations

The student must have knowledge of electrical design.

The following courses should be completed:

- F300e - Tmax circuit breakers
- F310e - Emax circuit breakers
- F345e - ABB Software Desktop.

Main topics

- Introduction to ABB Software desktop
- Software upgrade
- Main characteristics of DOC
- Electrical design of a network with DOC: practical section using software
- Creation of technical documentation
