

Pilot devices

Reliable products, easy to select and install

ABB pilot devices are engineered for total reliability. Our products are tested to extremes and proven in the toughest environments. Their innovative design simplify the entire process, from selection to installation. Enclosures, signal towers and signal beacons complete the portfolio.

Continuous operation

Engineered for tough environments

ABB pilot devices are designed with protection degree of up to IP69K and 4X, guaranteeing reliability in extreme environments – making ABB pilot devices ideal for use in demanding industries such as construction and food and beverage. An innovative design that automatically cleans contacts ensures high reliability for all products.

Global availability

Simple selection and stock management

ABB's core offering includes the pilot devices most in demand, so product selection is easier, stock management is simpler and product availability is higher.

Support for exporters is world-class, thanks to ABB's standardized global range, certified to comply with all major international standards.

Easy to install

Save time and space

The unique design of ABB's modular range enables tool-free installation that is quick and simple. It provides high flexibility for last-minute changes. With its all-in-one construction, the compact range reduces installation space and saves time.

Pilot devices

A small upgrade that can make a big difference

Modular range

Flexible configuration

A versatile selection of operators with high levels of flexibility and a broad choice of electrical ratings.

Find the perfect solution for almost every application.

The flexible solution that simplifies your stock management.

- More flexibility: last-minute changes made easy
- Up to 6 contact blocks, NO and NC
- Save up to 30% installation time with unique tool-free snap on components
- Simple solutions nuts require no tools
- Wide choice of operators and bezels
- High AC15 electrical ratings 6 A at 230 V
- High resistance to water intrusion with IP66.

Compact range

All-in-one solution

The most efficient solution available, reducing installation time and cost. The compact range have the highest level of dust and water resistance on the market.

All-in-one design makes installation fast.

- Fewer order codes make selection easy and save time.
- Improve reliability: higher protection levels with IP66, IP67 and IP69K classification and 4X (Nema)
- Compact: just 42 mm built in depth.
