

# Plug in and break out.

Introducing ReliaGear® neXT power panelboard.

## Take power panel innovation to the neXT level with ReliaGear neXT.

Its modular, field-modifiable panel design and groundbreaking Tmax XT plug-in circuit breakers dramatically save time, labor and cost while ensuring rock-solid reliability.

### Plug into all these advantages:

- Easy and fast top-bottom feed change in the field
- IP20 finger-safe feature on specific bus stack models
- Multiple connectivity options and built-in metering
- Single tool needed for all components installation
- Easy and fast configuration, quotation and ordering through the **empower** platform
