

ELECTRIFICATION U.S.

Product Life Cycle Announcement

SACE Tmax T5-T7 & T7M MCCBs

In accordance with the ABB global strategy, the Molded Case Circuit Breaker product line Tmax T5-T7 & T7M will enter the Classic phase of their life cycle on January 1st, 2022 and Limited phase on December 30, 2022.

This life cycle management is being done to provide our customers with the latest technology available in these product categories. For process details please visit [Life Cycle Management](#).

With the obsolescence of SACE Tmax T5-T7 & T7M, now is the time to move to new technology. Through ABB's continued investment in R&D, SACE Tmax XT5-XT7 & XT7M molded case circuit breakers help make your business more competitive by offering the newest products and providing the latest technology for your customers. ABB's Tmax XT breakers offer an innovative design that maximize ease of use, integration, and connectivity while reliably delivering safety and quality, allowing you to save time and money from stocking to execution.

For more information on SACE Tmax XT, see product resources linked below on page 3 of this announcement.
