

LIVE TRAINING

ABB product training

Product and ABB empower training for residential, commercial, and industrial products

ABB Electrification offers two in-person training opportunities for residential, commercial, and industrial electrical projects; small to medium projects (Mebane 101) and medium to large projects (Mebane 102). During these classes attendees learn about ABB products, how to read electrical drawings/schedules, and how to utilize ABB empower. There will be hands on practice with ABB empower and equipment.

ABB product training covers:

- Small to medium projects (Mebane 101) - load centers, modular metering, transformers, panelboards, and more
- Medium to large projects (Mebane 102) - switchboards, motor control centers and busway.

Agenda for each class:

Day 1: General product training

Day 2: Hands-on empower training

Day 3: Mebane manufacturing and customer experience center tours

Day 1 and 2 will be held at the Aloft Hotel, 345 Blackwell St, Durham, NC 27701. Shuttle service will be provided on Day 3 to take the class to the Mebane manufacturing facility and customer experience center for tours. The shuttle will depart Mebane for the Raleigh-Durham Airport at approximately 1:00pm..

There is a \$550 per attendee cost, paid for directly through distributor marketing funds. This cost covers instruction, breakfast and lunch each day, a group dinner the first night, and travel to the Mebane facility and back to the airport on the last day.

A laptop or other device that can be brought to class to login to empower for hands-on training is required.

ABB product training: Small to medium projects (Mebane 101):

February 6 – 8, 2024
March 5 - 7, 2024
