

DSE201

Compact Design with Enhanced Protection

The 1P+N electronic residual current circuit-breakers with overcurrent protection (RCBOs) DSE201 meet the demand for devices that fully protect modern installations against short-circuit currents, overloads earth fault currents and indirect contacts, providing additional protection against direct contacts (30 mA versions). Each RCBO is fitted with a functional earth wire to guarantee the highest level of safety, even in case of loss of neutral. In only one module width, these electronic RCBO offer a technologically advanced and comprehensive range with outstanding features, sizes and tripping characteristics.
