Product life cycle announcement

Motion MicroFlex e100

Active	Classic	Limited	Obsolete
Full range of life cycle services and support		Limited range of life cycle services and support	Replacement and end-of-life services

Current life cycle status

The MicroFlex e100 motion controller is in the Active phase according to the ABB life cycle model outlined above.

Life cycle plan

MicroFlex e100 motion controller will be phased out according to the following plan:

Date	Life cycle phase
1.4.2018 – 30.6.2018	Classic
1.7.2018 – 30.6.2019	Limited
1.7.2019 –	Obsolete

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Recommended actions

It is recommended to replace the existing installation with compatible latest generation product.
