

PRODUCT LIFE CYCLE STATEMENT

# Motion NextMove ES

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

## Current life cycle status

The NextMove ES motion controller is in the Obsolete phase since 1.1.2023, according to the ABB life cycle model outlined above.

## Life cycle plan

It is planned to keep MotiFlex e100 in the Limited phase until the end of 2022, after which it will be transferred to Obsolete phase.

## Product in Obsolete phase

The product is not available in the Obsolete phase.

## Recommended actions

It is recommended to replace the existing installation with compatible latest generation product.

## Further information

For more information on drives life cycle management and available services contact your local ABB organization or at [www.abb.com/drives](http://www.abb.com/drives).
