Product life cycle announcement

DSMS series stepper motor

Active	Classic	Limited	Obsolete
Full range of life cycle services and support		Limited range of life cycle services and support	Replacement and end-of-life services

Current life cycle status

The DSMS series stepper motors are in the Classic phase since 1.7.2017 according to the ABB life cycle model outlined above.

Life cycle plan

DSMS series motors will be phased out according to the following plan:

Date	Life cycle phase
1.4.2018 – 31.12.2018	Limited
1.1.2019 –	Obsolete

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Recommended actions

Currently there are no plans to introduce an alternative stepper motor product. An equivalent product is available from the manufacturer Schneider.

Further information

For more information on drives life cycle management and available services contact your local ABB organization or at www.abb.com/drives.

Product availability in Clasic phase

In classic life cycle phase DSMS will continue to be available. Some variants may have a longer lead time as stock levels are reduced.
