# Overview

This is your how-to guide for the new processes, policies, and procedures associated with the transition of certain product lines from ABB's T&B Access customer portal to ABB empower.

We want to make this transition as seamless and straightforward as possible. If you have questions about the transition, the ABB empower operating system or, if you need any assistance, please contact your ABB sales representative. Our experienced customer service support team is also available to provide assistance during the transition and beyond. For details, see the customer service section of this guide.

If you are new to ABB empower, it is important that your systems are updated with the required changes documented in this transition guide. This will ensure that all orders and invoices are properly processed. Please carefully review the details in this document and ensure that your company completes the necessary actions.

The following is a list of product lines associated with Electrification Installation Products (ELIP) with short descriptions that will be transitioned. We recommend you review this list closely.

Product line description	Product line	Product line description	Product line	Product line description	Product line
Steel City boxes and accessories	001	Steel City EMT fittings	116	Carlton fittings	232
Red Dot outdoor weatherproof	002	Steel City rigid fittings	117	Carlton ENT	234
Steel City floor boxes	003	Red Dot conduit bodies	118	Carflex fittings	236
Kindorf modular metal framing	004	Protection & control HT fuses	120	Carlton weatherproof	237
Superstrut channel & accessories	005	Primary cable accessories 200 separable connector	121	Carlton enclosures	238
Blackburn mechanical	006	Primary cable accessories 600 separable connector	122	Carlton premise	241
Color-Keyed compression	007	Primary cable accessories joints, terminals, misc.	123	Spacers, P&C flex duct	242
Electricians' supplies	008	Protection & control fuses arrestors	124	Carlton junction boxes	243
Ty-Rap fastening	009	Protection & control switch gear	125	Carlton electric other	244
Steel City diecast fittings	010	Iberville boxes & covers	126	Pipe & conduit	250
Steel City commercial fittings	011	Express tray-wire basket tray	128	Homac underground in-line splices & bus connectors	260
T&B Liquidtight fittings	012	Fault indicators	130	Homac transformer & pedestal connectors and covers	261
T&B rigid fittings	013	Application tooling	131	Homac compression connectors	262
Blackburn grounding	014	Steel City steel squeeze connectors	135	Homac overhead splice & tap connectors	263
Steel City hangers and clamps	015	Airfield lighting	136	Homac tools	264
Identification	016	NEMA enclosures hazardous	137	Homac oxide inhibitor & accessories	265
Insulation	017	T&B cabletray ME	139	Homac substation connectors	266

Underground	034	Deltec	159	Blackburn compression connectors	268
T&B Cabletray ME	039	Capacitor products	200	Homac grounding products	269
Non-Metallic Boxes	040	Reclosers	201	PMA conduit & fittings	292
eFab	041	Electric arc furnace switches	202	Adaptaflex	296
Meter Sockets	050	Switches, interrupters, accessories	203	Kopex	297
T&B Teck-JMC Fittings	051	Comms service lowering devices misc	204	Harnessflex	298
Catamount fastening products	054	Sectionalizers VSV, VBM	205	Spec-Kon cable ties	300
Russellstoll	057	Protection & control switchgear	206	Spec-Kon metric terminals	301
Russellstoll Pos-E-Kon	080	Voltage & fault indicators	207	Color-keyed metric lugs	302
Blackburn exothermic welding	083	Hi volt vacuum capacitors	221	Glands	303
Spring steel fasteners	084	Hi volt vacuum relays	222	AC Charging	401
Furse surge protection	085	Jennings DC contactors	224	DC Fast Charging Wallbox	402
Ocal PVC system	087	Vacuum coaxial switches	225	DC Fast Charging Terra	403
Ty-Duct	104	Carlton elbows	231	Wireduct	504
T&B cord fittings	105				
T&B BX/FLX/MC fittings	106				
Steel City liquidtight	115				

# Information that will be communicated in this guide

## What is happening?

ABB Installation Products Inc. is transforming our current ERP platform from a legacy mainframe system that was implemented over 20 years ago to a proven version of SAP. SAP is a fully integrated and leading cloud ERP that will allow us to optimize processes, efficiency, and data protection. This transformation will include a transition from our current customer portal (T&B Access) to ABB's empower platform, which, along with SAP, will provide a common interface for conducting business across all divisions of ABB Electrification.

The transformation and subsequent upgrade will not affect our warehouse management or manufacturing systems, but will include a new transportation management system and provide enhancements to our ability to process customer complaints and case management.

## Who will be affected by this transition?

Customers affected by this transition are those currently ordering any of the ABB products identified on page 4 of this guide.

## When will the transition happen?

We started this transition with a pilot phase involving our Emergency Lighting (EML) products, in which you may already have been involved, that went live in the summer of 2021. Installation Products is expected to go live in July 2023.

## How will shipping schedules be affected?

Customer shipping schedules will remain the same, and your orders will continue to ship out of our factories and warehouses located in Byhalia, MS, and Phoenix, AZ.

## How are existing ABB empower users affected by this transition?

Existing ABB empower users will now be able to track these additional products in empower. Customers currently using ABB empower will maintain their ABB empower profile, and continue to use their current account number for all non-Midwest Brand and Current Technology products.

## What tasks are new ABB empower users being asked to complete?

Customers will need to take actions to set up their account with ABB to help ensure an efficient quoting and ordering experience. Please see the checklist on the next page.

## How will terms and conditions change?

The ABB Installation Products Inc. general terms and conditions of sale will apply:

[General terms & conditions of sale](#)

**Consult your ABB sales representative for more details.**

# Checklist for Installation Products customer transition

## Step-by-step required tasks for a successful transition (US)

[Click to download copy of checklist](#)

### Reference:

Pages 7 & 8

- ☐ **1. Ensure that all of your Emergency Lighting and Installation Products catalog numbers roll up under one of the vendor numbers (newly created or original) prior to go-live date**

**Who:** EML Pilot customers only

**Timing:** Needs to be completed by ELIP go-live date

**Where:** Customer's internal system

Page 7

- ☐ **2. Submit sales tax exempt certificate/documentation**

**Who:** Non-EML Pilot customers

**Timing:** Immediately

**How:** via the Customer PO and [Tax Exempt Certificate Submission Form](#) (click to access)

Please be sure to include the following information:

1) Vendor/supplier name: either [left blank](#) or made out to [ABB Installation Products Inc.](#) (those made out to specific brands within ABB, such as Lightalarms, Ex-Solutions or Hazlux, etc., will not be accepted)

2) Must be signed and dated

3) If a distributor has multiple state locations, they must include their multi-state jurisdiction tax certificate

Page 7

- ☐ **3. Submit sample customer purchase order which must confirm the billing address and customer's ordering location**

**Who:** Non-EML Pilot customers

**Timing:** Immediately

**How:** via the Customer PO and [Tax Exempt Certificate Submission Form](#) (click to access)

Page 14

- ☐ **4. Complete user acceptance testing with ABB**

**Who:** EDI customers only

**How:** ABB EDI representative will contact the customer's EDI representative

Pages 7 & 9

- ☐ **5. Receive customer number from ABB**

**Who:** ABB to send (existing empower users continue to use same number)

**Timing:** Within 45 days of ELIP go-live date

**How:** ABB empower customer numbers will be provided to the customer

Pages 12-13

- ☐ **6. Ship and debit claim testing (SPA claim-backs)**

**Who:** All customers with ship and debit quotes

**Timing:** 45 days before ELIP go-live date

**How:** Upload all new SAP quote numbers and end user codes. Download empower required template followed by training and testing (EDI 844 and 849 testing).

Page 11

- ☐ **7. Prepare your system with appropriate Product Line/Product Group fields based on new SAP terminology conversion of MPG/MG2**

**Who:** All customers

**Timing:** Within 45 days of ELIP go-live date

**How:** See page 11 of Transition Guide for details and example

Page 14

- ☐ **8. Download pricing files from ABB and upload to customer internal system**

**Who:** All customers are responsible for downloading new pricing files from [ABB empower](#)

**Timing:** Within 45 days of ELIP go-live date

**How:** Download new pricing files from ABB empower and upload files into your internal system

Page 15

- ☐ **9. Submit any pending returns**

**Who:** All customers

**Timing:** There will be a freeze window 45 days prior to go-live during which time returns cannot be submitted

**How:** via T&B Access

Page 9

- ☐ **10. Register for an ABB single sign-on (SSO)**

**Who:** New empower users

**Timing:** On or one week prior to ELIP go-live date

**Where:** [empower website](#) / [Customer registration for empower](#) / [Getting started with empower](#)

Page 7

- ☐ **11a. Log in to empower**

**Who:** New empower users

**Timing:** On ELIP go-live date

**Where:** [empower website](#) / [Customer registration for empower](#) / [Getting started with empower](#)

Pages 7 & 9

- ☐ **11b. Log in to empower and request USS6 Sales Org to be added to empower profile**

**Who:** Current empower users

**Timing:** On ELIP go-live date

**Where:** [empower website](#) / [Customer registration for empower](#) / [Getting started with empower](#)

### Legend

**Vendor number** – Unique number assigned for ELIP by the customer to ABB Installation Products once the customer has identified ABB as a vendor in their internal system.

**Account number** – Unique number assigned by ABB to each customer. This number is generated by ABB's SAP system and is the same number used in empower to identify a customer.

**Customer number** – Same number as the account number.

# Account set-up for new ABB empower users

All customers purchasing affected products will be migrated to the ABB empower operating system. Your new ABB empower customer number will be communicated to you in the coming weeks. Once that migration is complete, new payment terms may apply. Please note, your remittance information will change. A copy of the ABB general terms and conditions of sale is linked below for your reference.

All payment remittance info can be found in the vendor set-up information on the following page.

## Sales tax exempt certificates and sample purchase orders

This must be completed prior to the go-live date; otherwise your account will not be active, and you will not be able to place orders.

In all cases, a new sales tax exempt certificate with the vendor/supplier name either left blank or made out to ABB Installation Products Inc. will be required. Those made out to specific brands within ABB, such as Lightalarms, Ex-Solutions or Hazlux, etc., will not be accepted. Two blank multi-state sales tax exempt certificate forms are linked (on the right) for your reference. Please complete the appropriate sales tax exempt form for the states where your company is making tax exempt purchases. If neither of the linked forms is applicable to your state, you must provide your state's exemption form. Your new sales tax exempt certificate must be dated 1/1/2021 or later.

To expedite account set-up, please submit a sample customer purchase order which must confirm the customer's billing address and ordering location. The ordering location must be a physical street address and cannot be a PO box. If this information is not clearly identified on the purchase order, please indicate the ordering and billing addresses in the notes section of the purchase order.

Customer PO and tax exemption forms can be submitted [here](#) (click to access).

# ABB Installation Products Inc.

## Vendor set-up information

For customers ordering both Emergency Lighting products and Installation Products, there may have been the need to set up a new vendor number in order to separate products during the pilot phase. When Installation Products transitions to empower, all products may transition to the same vendor number.

If open orders need to be cancelled and recreated in our new ERP system, your ABB customer service rep will contact you.

**Name:** ABB Installation Products Inc.  
860 Ridge Lake Blvd.  
Memphis, TN 38120

**Remit to:** ABB Installation Products Inc.

**Email for electronic remit details:**  
[remit@us.abb.com](mailto:remit@us.abb.com)

Your accounts receivable contact will be assigned once your account is established in the system.

**Inquiries can be sent to:**  
[creditrequests@us.abb.com](mailto:creditrequests@us.abb.com)

In the event that your system does not support using the complete U.S. legal entity name ABB Installation Products Inc., please use the approved shortened name, ABB IP Inc.

# ABB empower overview

ABB empower provides users the ability to fully create and follow orders through key digital commerce functionality.

There are some important guides to help new users become familiar with the ABB empower application and get tips for navigating the tool:

[Customer Registration](#)

[Getting Started in empower](#)

Every page in ABB empower has an icon that links directly to online lessons. ABB empower is very intuitive and even new users can quickly navigate for instant answers.

## Getting help: ABB empower account registration

### For existing empower users

Check your empower account list to see if your new ABB Electrification account(s) is (are) already on your profile. If not, you will need to request that the account(s) be added. Please consult the link [Getting Started in empower](#) for information on how to request new accounts.

### For existing T&B Access users

Each user will need to register for an individual ABB SSO ID to complete their empower account set-up. Once the ID is activated, T&B Access users will have the option to log in with their T&B Access credentials. This will complete the creation of their empower profile and import their accounts automatically. See the [Customer Registration](#) guide for more details.

### For non-T&B Access users

New users and users who have not recently logged into T&B Access will need to create an empower profile. This requires you to know your customer account numbers. Visit [empower.abb.com](https://empower.abb.com) and click "Register Now" to begin the user set-up process. Please consult the [Customer Registration](#) guide for more details about how to register for ABB empower.

Contact [empowerU@abb.com](mailto:empowerU@abb.com) for technical issues and questions related to using ABB empower. You can also click the icon at the bottom of the page and then select "Help." Customers should contact their Account Manager or empower Admin for account access and revalidation requests. Contact Customer Service for questions regarding orders and billing.

**VERY IMPORTANT:** Customers are encouraged to create their ABB SSO ID and download their pricing files at least 30 days prior to go-live. For new empower users, your profile will not be available for use until day 1 of go-live.

**Step 1:** Log in or create an account through "Register Now" link.

**Step 2:** Create your profile with your ABB ID or click "Get ABB ID to Register."

Customers who purchase products across multiple ABB sales organizations may see a list of approved accounts on their empower account management page based on the ABB sales organizations with which they transact.

Select the account that corresponds to the ABB sales organization on your purchase order. Please note for products affected by this transition guide, “ABB Installation Products USA” should be chosen.

**The following are examples of ABB’s various sales orgs and a screenshot of the empower account management page:**

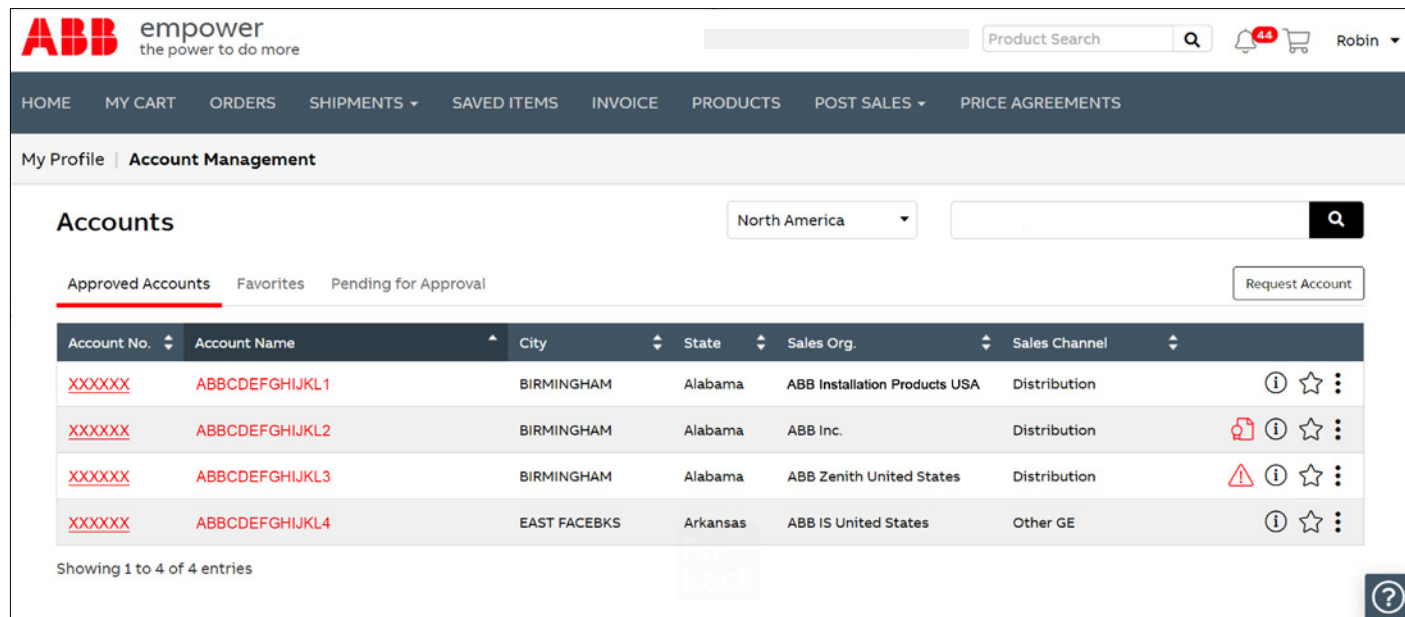

**ABB IS United States** to be used when placing an order for legacy Industrial Solutions and ABB Smart Buildings/Smart Power material (US)

**ABB IS Canada** to be used when placing an order for legacy Industrial Solutions material (CA)

**ABB Inc.** to be used when placing an order for legacy Zenith, power controls and Current Technology/Surge Protection materials (US)

**ABB Installation Products USA** to be used when placing an order for Installation Products & Emergency Lighting (US)

**ABB Electrification EL Canada** to be used when placing an order for Installation Products, Canada Smart Buildings/Smart Power and Emergency Lighting (CA)

The screenshot shows the ABB empower website interface. The top navigation bar includes the ABB logo, the text "empower the power to do more", a product search bar, and a user profile dropdown for "Robin". Below this is a secondary navigation bar with links: HOME, MY CART, ORDERS, SHIPMENTS, SAVED ITEMS, INVOICE, PRODUCTS, POST SALES, and PRICE AGREEMENTS. The main content area is titled "My Profile | Account Management". Under "Accounts", there is a filter for "North America" and a search bar. Below the filter, there are tabs for "Approved Accounts", "Favorites", and "Pending for Approval". A table lists four approved accounts with columns for Account No., Account Name, City, State, Sales Org., and Sales Channel. Each row has an information icon, a star icon, and a three-dot menu icon. At the bottom of the table, it says "Showing 1 to 4 of 4 entries".

Account No.	Account Name	City	State	Sales Org.	Sales Channel
XXXXXX	ABBCDEFGHIJKL1	BIRMINGHAM	Alabama	ABB Installation Products USA	Distribution
XXXXXX	ABBCDEFGHIJKL2	BIRMINGHAM	Alabama	ABB Inc.	Distribution
XXXXXX	ABBCDEFGHIJKL3	BIRMINGHAM	Alabama	ABB Zenith United States	Distribution
XXXXXX	ABBCDEFGHIJKL4	EAST FACEBKS	Arkansas	ABB IS United States	Other GE

# Product pricing structure

In SAP, different terminology is used to identify Product Lines/Product Groups for pricing purposes:

- Product Line = MPG
- Product Group = MG2

For Product Group, there is a 1-to-1 relationship between MG2 and the existing Product Groups in TOPS (cross reference files will be available for download from the NAM Transformation website). Any existing Product Group pricing discounts will be maintained for the new MG2 with no impact on SKU-level pricing.

The pricing file for the SAP conversion will be based on the [MPG/MG2 pricing structure](#). Please prepare your system to accept these fields.

At the Product Line level, some have been divided into multiple MPGs based on the cross reference, but this will not impact the pricing structure. An example is provided below.

Current TOPS PL		New MPG	New MPG Description	Current TOPS PG		New MG2	New MG2 Description
3	→	15	STEEL CITY FLRBOX M	300	→	15A	SCFB 600 SERIES FB - CAST IRON III
3	→	15	STEEL CITY FLRBOX M	301	→	15B	SCFB 600 SERIES FB - CAST IRON IV
3	→	16	STEEL CITY FLRBOX NM	306	→	16A	SCFB 640P SERIES FLOOR BOX - PLASTIC
3	→	16	STEEL CITY FLRBOX NM	307	→	16B	SCFB 640P/740 SERIES ACTIVATION II
3	→	17	STEEL CITY FLRBOX PT	328	→	17A	SCFB ACCESS FLOOR MODULE - FREEAXES
3	→	17	STEEL CITY FLRBOX PT	330	→	17B	SCFB ACCESS FLOOR MODULE - SPECIAL

# Special pricing authorization

## Definition

Special pricing authorization or SPA quotation is an agreement between ABB and a distributor to use pre-negotiated prices to serve specific end users through its inventory. The distributor claims back the difference between the into-stock price and the pre-negotiated price of goods within a specified period.

This SPA definition does not apply to any other type of quote or agreement that ABB utilizes.

## Purpose

SPA quotations allow ABB and its distribution partners more flexibility to bid in strategic sales situations.

## Application and duration

Each SPA quotation given to a distributor correlates directly to an authorized end user. The SPA quotation effective date and the SPA quotation expiration date are specified at the creation of the SPA. The maximum length is one year for the expiry date; however, SPA quotations are renewable. SPA quote pricing cannot be used for into-stock purchases.

## Responsibilities

ABB sales representatives are responsible for identification of, suggestions for, and recommendations on situations requiring SPA quotations, as well as ensuring that required approvals and proper documentation (including the end customer number) are obtained prior to committing to special pricing to the distributor. Written authorization is required as verbal SPA agreements will not be accepted. Distributors are responsible for ensuring that SPA pricing is used in accordance with the quotation and providing requested documentation in support of claims. Misuse of SPAs may result in termination of the quote agreement with the distributor. All claims are subject to ABB audit.

## End customer guidelines

- Each end customer listed on a secondary SPA requires a unique end customer number.
- Pricing for secondary SPA agreements will be reviewed on an annual basis. All pricing is subject to change.
- Secondary SPAs must be greater than \$10,000 in sales annually (with a minimum of \$2,500 per each end customer).

# SPA claim policy

Deductions taken for SPA credit PRIOR to issuance of credit constitutes a violation of ABB policy. The following criteria must be satisfied to receive SPA credit. Failure to meet such criteria will result in a denial of the requested SPA credit.

**Timing:** Distributors must submit SPA claim requests within ninety (90) days of the date of sale to the authorized end customer. In addition, credit will only be issued for those items covered and in effect per the SPA at the time of the end customer sale date.

**Pricing agreement type:** Distributors may only request SPA credit using a valid SPA quote for material bought at standard into-stock or book price level. Distributors cannot request credit for product originally ordered on a project quote, or any other discounted pricing (i.e. promotion).

**Pricing:** ABB will only issue SPA credit if the SPA price is less than the purchase price. ABB will calculate SPA claims using the into-stock price level, and the applicable cash discounts will be deducted from the credit memo. Distributors cannot request credit for products that were ordered and shipped into stock by other than the into-stock or published book price.

**End customer information:** Claim-back submission requires distributors to submit only using the empower standard formatted template that includes the name of their end customer(s) and their end user code with the credit request.

**Distributor account qualification:** Credit will only be issued against the SPA if the distributor's account number is listed on that SPA.

**SPA conditions:** All submitted SPA claim-back requests must reference a valid SPA number, and the date of the distributor's sale to the end customer must be within the effective date of the SPA. Products for which credit is being requested must be explicitly covered by the referenced SPA.

**Shipment history:** The quantity of a distributor's claim-back request may not exceed the quantity of ABB's stock shipments to that specific location

and customer number. From the date of the end customer invoice, ABB will use two (2) years of ABB's stock shipments for shipment history calculations. Any products outside the two-year period available for credit balance are no longer claim-back eligible.

**Authorized multi-branch locations:** Requested claim-back quantity may not exceed the total sum purchased amount for all branches combined. The distributor must calculate the SPA credit amount using the purchase price for the relevant ABB shipments to the SPA claim location.

**Debit resolution:** Based on the claim-back credit invoice date, the distributor will have 30 days to pay back the debit amount associated to the claim-back. If the debit age exceeds 60 days, ABB reserves the right to deduct the full unpaid debit amount from any other payments due to the distributor.

**Amendment:** ABB Installation Products Inc. reserves the right to amend any or all of the terms of this policy at any time at its sole discretion.

## ABB empower

The ABB empower U homepage contains complete user guidelines for all aspects related to ABB empower usability, including:

- What is ABB empower? [Overall introduction and benefits of using ABB empower](#)
- How to get started: [login/sign up process and useful ABB empower links](#)
- [ABB empower SPA claim process description](#)

## EDI

In addition to ABB empower SPA claim functionalities, ABB provides EDI as an alternative for submitting SPA claims. If you prefer to use EDI, please contact our EDI support team at [edisupport@us.abb.com](mailto:edisupport@us.abb.com) for account set-up. If you have questions about the SPA credit process, please email [empoweru@abb.com](mailto:empoweru@abb.com).

# SPA claim process

ABB Installation Products Inc. requires the following documentation and data to process your secondary SPA claim-back request:

**Distributor account number:**

- Secondary SPA number (eight-digit quote number)
- ABB catalog number
- Quantity sold
- End customer invoice number and date
- End customer code
- End customer name
- Purchase cost
- Distributor account number

**The following data is optional; however, it assists in processing and reconciliation:**

- Distributor-calculated replacement into-stock cost
- Secondary SPA SKU price
- Distributor-extended claim-back amount  
(into-stock replacement cost – secondary SPA net price) x quantity sold

New pricing agreements will be sent to you prior to the go-live date. You will also receive the quote number for the new pricing agreement, which will link your current TOPS agreement that has been migrated to SAP.

**Manual claims submissions:** All SPA rebate claims related to ABB Installation Products must be submitted through ABB empower and/or via our new EDI SAP Interchange ID, including SPA claims related to orders entered in TOPS and T&B Access (legacy systems) prior to the transition. ABB will no longer accept submissions via T&B Access or submissions under the old interchange ID.

**ABB invoices:** ABB's SPA rebating process is quote driven; therefore, short paying of invoices is a violation of ABB's SPA policy. **All invoices are to be paid in full.**

## eCommerce

### Industry feeds

ABB will continue to feed enhanced marketing information for our top products via the Industry Data Exchange Association (IDW) and Trade Services platforms such as 1World Sync, Data Alliance, etc. This includes specification pages, technically attributed content, images, marketing descriptions and links to additional support material.

### EDI

Our excellent EDI services will continue to be available, and if your network connection is routed through a value-added network, no changes are anticipated.

If you have a direct AS2 or S/FTP network connection, we will contact you with related connection details and work with you to test the connection in both the test and production environments. This will also entail updating your current EDI ABB Installation Products trading partner profile with the following information:

#### ABB's EDI IDs:

- **Test:** 002154433IDX
- **Production:** 002154433IDX
- **Qualifier code:** 01

If you are a customer who was part of our Emergency Lighting (EML) products conversion, you may consolidate your new ABB vendor and EDI trading partner configurations created during the EML go-live.

# Return material authorization (RMA)

All return requests for affected product lines will transition from T&B Access to ABB empower.

—  
01 Warranty returns  
can be requested via  
the Post Sales option  
in empower

To ensure a smooth transition, we are implementing a 30-day cut-off prior to the go-live date in July 2023, during which time no new RMA requests can be entered in T&B Access. Your new requests will be entered into empower by our customer service team when the transition is complete. We strongly encourage you to return the products associated with any returns currently open in T&B Access prior to the 30-day cut-off.

POST SALES ▾
Returns
Rebates

—  
01

**To be eligible for credit, returned products must meet the following requirements:**

1. They must be current design, in new, unused, undamaged condition and in their original, unopened, “as-shipped” cartons.
2. They must be classified by ABB as returnable as indicated in the ABB empower RMA tool.
3. Returnable products must have manufacturing date codes of two (2) years or less at the time of return.
4. Returned products must be received by ABB within 30 days of the RMA approval date.
5. Return freight must be prepaid by the distributor location (excluding ABB error returns and VMI partner returns).
6. No debits are allowed until the material has been returned and the factory has inspected and issued the credit.
7. The debit amount must match the approved amount. Please reference the credit memo number on the debit.
8. RMAs must be included. Material arriving at our facility without RMA will be returned to sender.

Note: These are the standard return terms; please refer to your Master Sales Agreement for additional information.

## Customer service

ABB customer service support team: all orders for ABB Installation Products will flow through ABB empower, the ABB online portal. To assist you during

this transition, we have an experienced customer service support team to serve as your consistent point of contact.

**The ABB customer service support team offers dedicated support by:**

- ☐ Monitoring orders to help ensure that every shipment stays on schedule based on requirements
- ☐ Offering alternative solutions to out-of-stock items or lengthy lead times
- ☐ Serving as your access point for after-hours emergency services
- ☐ Coordinating inventory adjustments based on your specific forecasted need
- ☐ Expediting products to meet your customer's timeline where possible
- ☐ Assisting with order issues and special-order instructions
