Liability Disclaimer:

This document serves the sole purpose of providing additional, technical information and possible application and use cases for the contained products and solutions.

It **does not** replace the necessary technical documentation required for planning, installation and commissioning of the product. Technical details are subject to change without notice.

Despite checking that the contents of this document are consistent with the current versions of the related hard and software of the products mentioned within, deviations cannot be completely excluded. We therefore assume no liability for correctness. Necessary corrections will be introduced as and when new versions of the document are generated.

Introduction

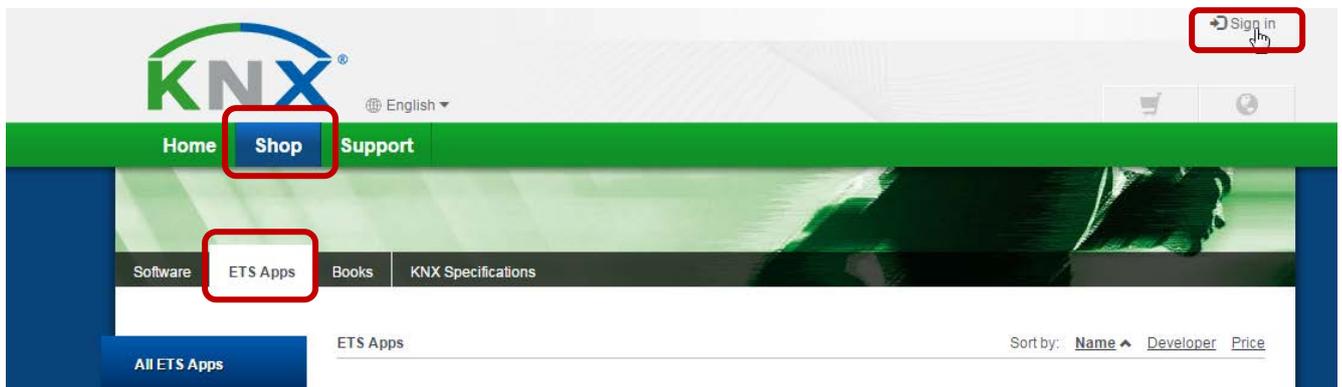

All current ABB i-bus® KNX application programs are now available in the ETS App "Online KNX product catalog". With this app it is no longer necessary to download application programs from the website of the manufacturer, since they can now be retrieved directly from the ETS4 / 5.

Objectives of the document

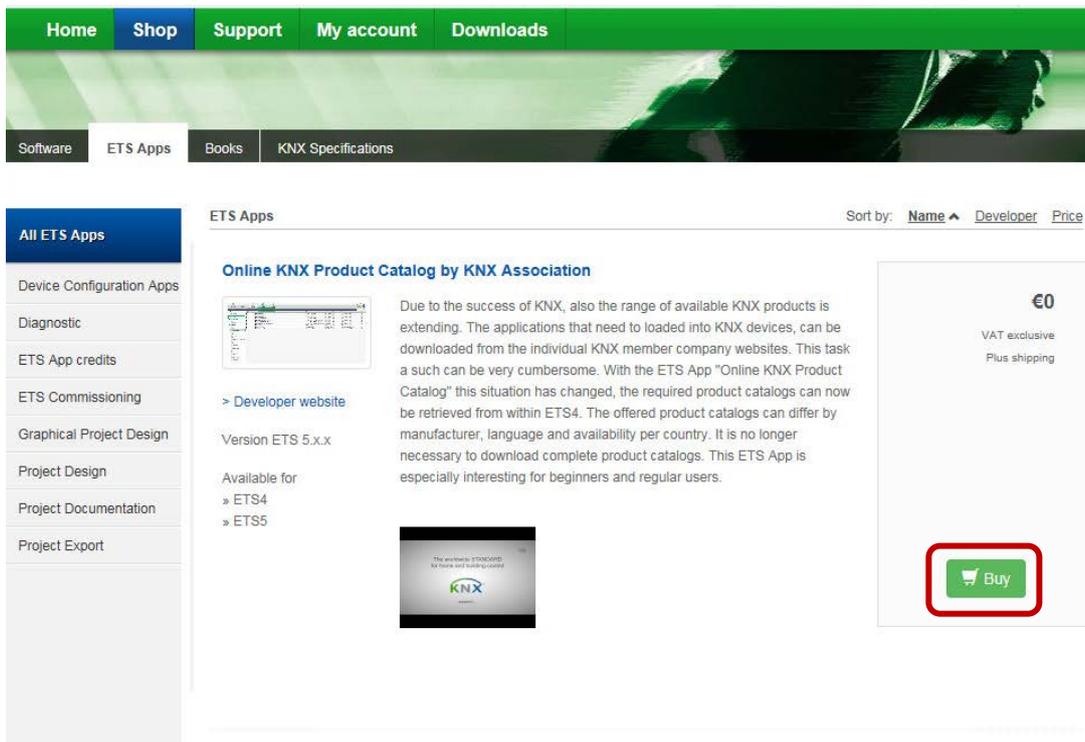

- The purpose of this document is to provide guidance on how to retrieve ABB ETS4/5 Application programs using the Online KNX Product Catalog.

Content

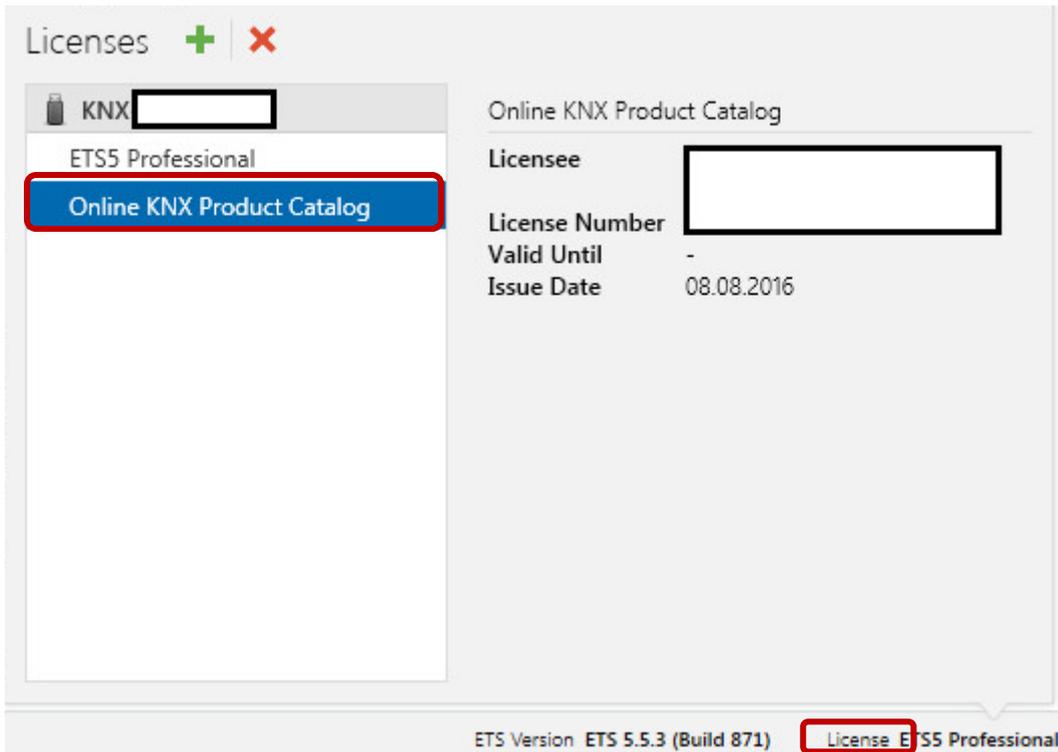

1. To install the "Online KNX Product Catalog" App please sign-in to [KNX Website](#) and select KNX Shop / ETS Apps.

2. Look for the "Online KNX Product Catalog", select the option "Buy" and follow the standard procedure when shopping in the KNX Shop.

3. The app has to be licensed via the KNX account.

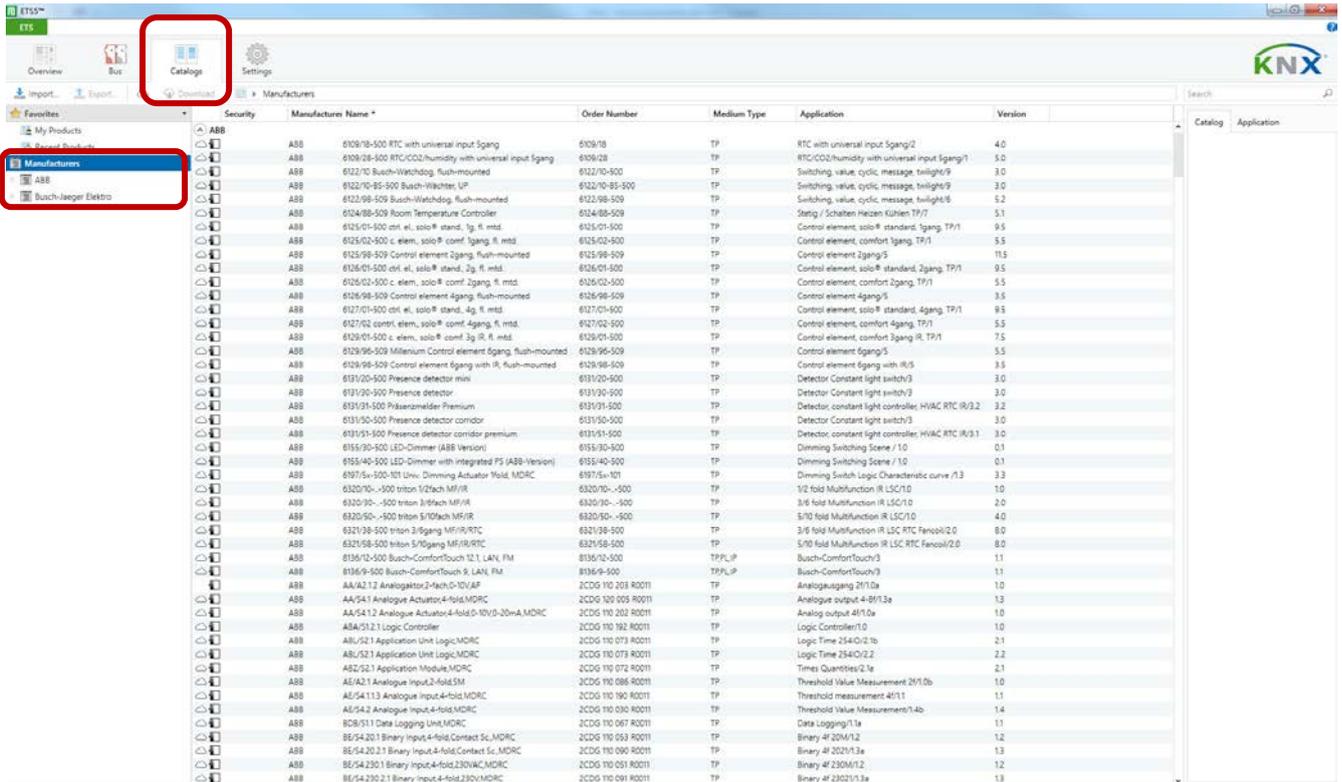

4. The online KNX product catalog is now enabled under Settings.

5. Please select ABB and Busch-Jaeger as manufacturers.

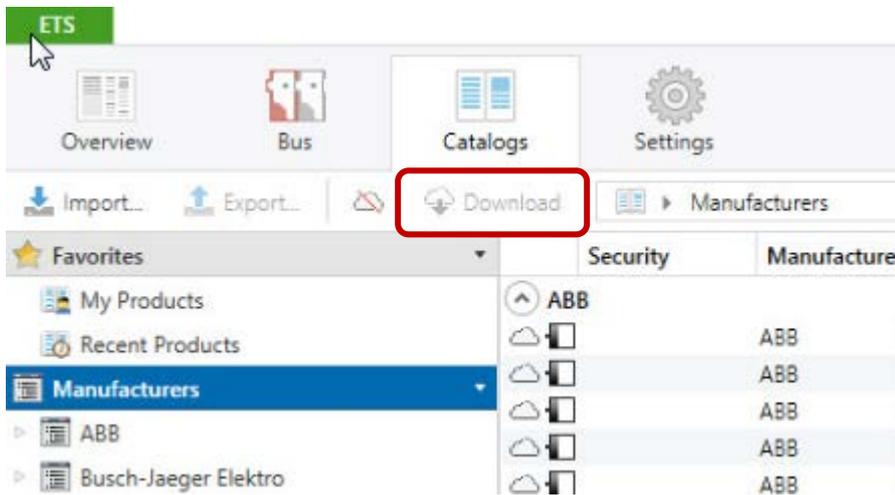

6. In the ETS menu under “Catalogs” are now available all the ABB i-bus® KNX and Busch Jaeger Application programs.

Note! The cloud icon ☁ means the Application programs are available online and can be used this way without problems.

If you want to download one or more files to your PC you can use option Download
