TEST AFDD

Suggested every six months
Empfohlen vorgeschlagen Halbjährlich
Suggerito ogni sei mesi
Proposé tous les 6 mois
Sugerido cada seis meses

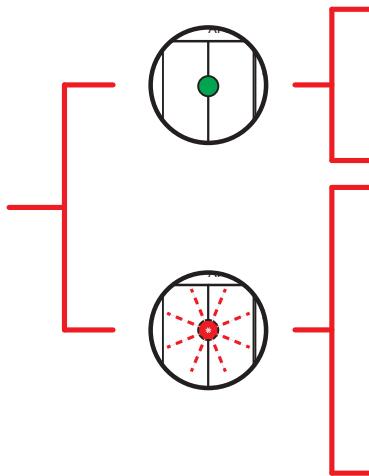

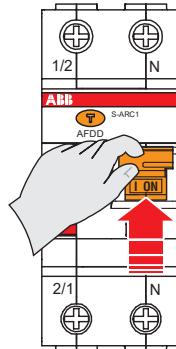

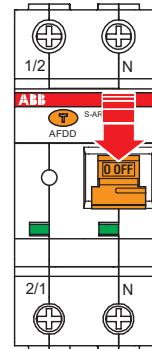

LED indications without tripping • LED-Anzeige ohne Auslösen

Indicazioni del LED senza uno scatto • Indications de la DEL sans déclenchement • Indicaciones del LED sin un disparo

LED indications after tripping • LED-Anzeige nach dem Auslösen

Indicazioni del LED dopo uno scatto • Indications de la DEL après déclenchement • Indicaciones del LED después un disparo

**$I > I_{in}$
(MCB)**

(AFDD)

1 blink/sec	5 sec		
2 blink/sec	5 sec		
3 blink/sec	5 sec	$U > 275 \text{ V}$	

Recall of the last LED indication due to arc fault tripping or overvoltage

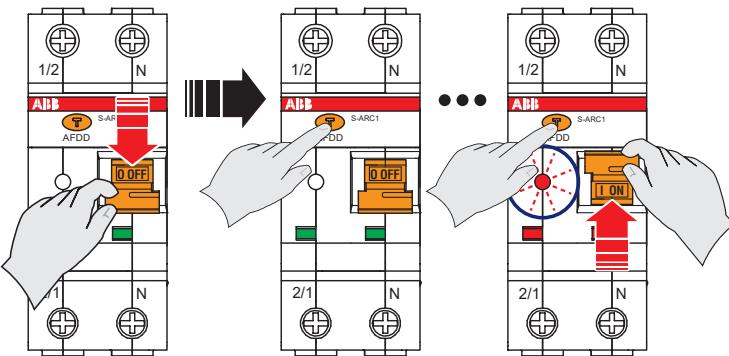

Abruf der letzten LED-Anzeige durch Fehlerlichtbogenauslösung oder Überspannung

Richiamo dell'ultima indicazione del LED per scatto per arco o sovratensione

Rappel de la dernière indication de la DEL pour déclenchement pour arc ou surtension

Recuperación de la última indicación del LED por el disparo causado por el arco o sobretenión

RECALL

Clearing of the memory of the last LED indication due to arc fault tripping or overvoltage

Löschen des Speichers der letzten LED-Anzeige durch Fehlerlichtbogenauslösung oder Überspannung

Cancellazione della memoria dell'ultima indicazione del LED per scatto per arco o sovratensione

Annulation de la mémoire de la dernière indication de la DEL pour déclenchement pour arc ou surtension

Limpieza la memoria de la última indicación del LED por el disparo causado por el arco o sobretenión

CLEARING
