

Faster mounting, the safe way.

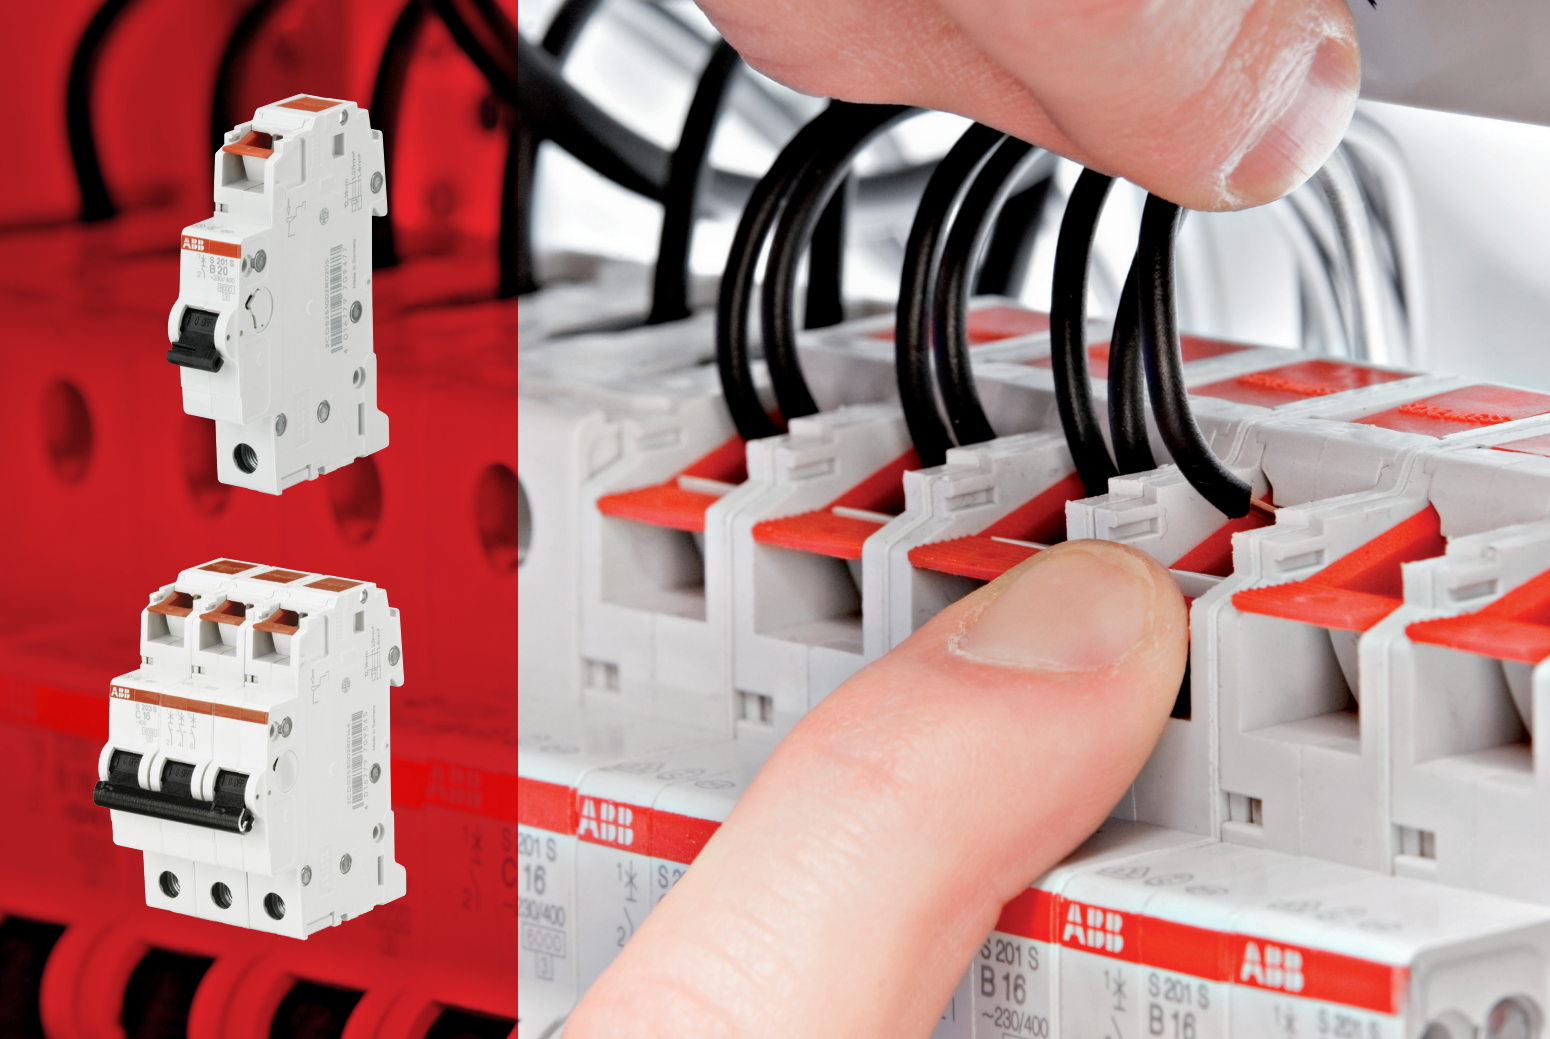

Tool-free easy connect technology of S200 S series

Simple, safe and fast. Thanks to the tool-free screwless terminal technology the S200 S can be wired far more quickly and easily than standard screw-type circuit breakers. All kinds of cables can be connected. Rigid cables and flexible cables with end sleeves can be directly plugged in the screwless terminal.

The easy-to-use, smooth-running terminal lever only needs to be pushed to connect flexible cables without end sleeves, or to disconnect the wiring. What's more, they are fully compatible with all ABB System pro M compact® components, allowing other devices such as miniature circuit breakers, all available accessories and residual current protective devices to be combined effortlessly.:
