

# Underground

Rely on ABB's exceptional line of cable accessories to connect, ground, splice, terminate and protect underground cable from 5 kV to 38 kV — along with solid-dielectric switchgear in compact, modular designs for pads or vaults

**1** Homac® Flood-Seal breakaway street light kit

**2** Elastimold™ 80 Control/Internal MVI

**3** Elastimold® REVS voltage sensor with insulated cap

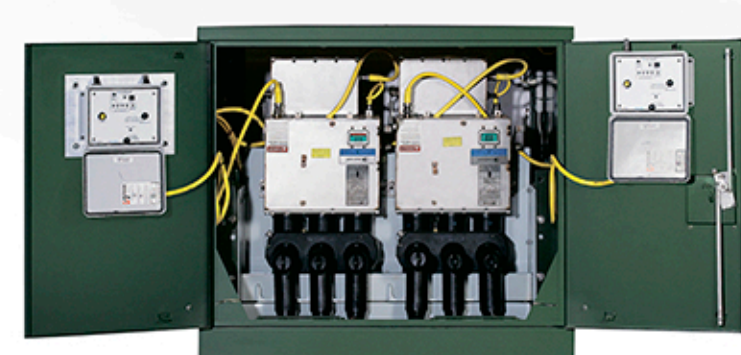

**4** Elastimold 600 A deadbreak spiking tee, GAD and Veri-Spike™ grounding-aid devices

**5** Elastimold Dual Port Elbow

**6** Elastimold™ Tru-Break™ single-phase and three-phase switchgear modules

**7** Elastimold pad-mount switchgear

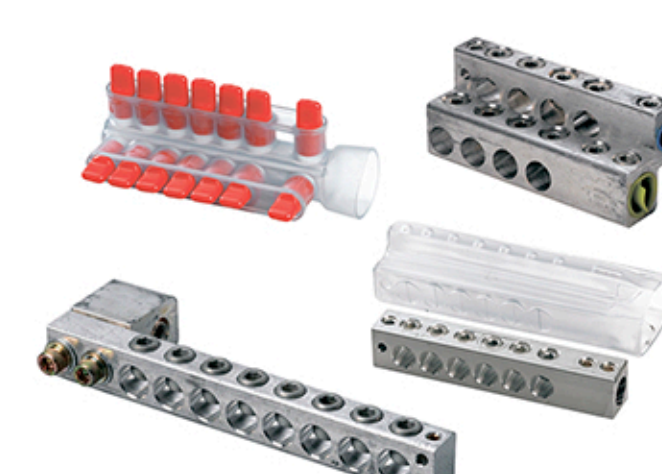

**8** Elastimold 200 A loadbreak and deadbreak elbows

**9** Elastimold 200 A and 600 A surge arresters

**10** Elastimold 200 A loadbreak bushing and insert

**11** Homac transformer connectors

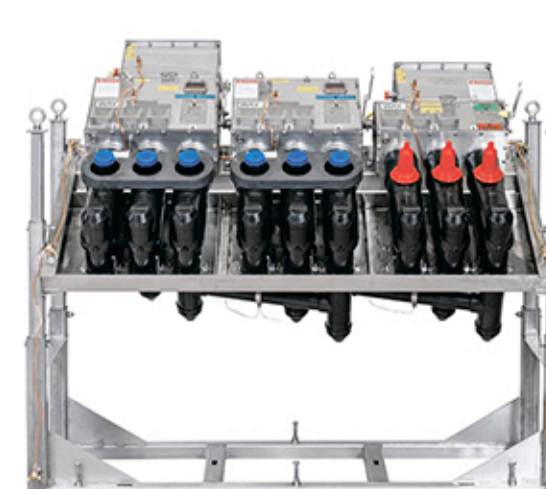

**12** Hi-Tech® backup current-limiting fuse

**13** Homac Flood-Seal splices

**14** Elastimold PCJ power cable joint

**15** Elastimold small vault switchgear

**16** Elastimold advanced connection system - 600 A deadbreak elbow separable connectors and ComboT

**17** Elastimold 200 A grounding elbow
