

ABB i-bus® KNX LED Dimmers

Constant and reliable dimming
of LEDs easier than ever

Nowadays dimming lights is a crucial functionality both in residential buildings and in commercial buildings. It enables you to perfectly adjust the light conditions to your needs: Realize a cozy atmosphere in the living room or ensure a constant light in the office. The new ABB i-bus® KNX LED Dimmers match perfectly to the needs of the market: They ensure constant dimming behavior, without having negative effects like flickering and glowing. abb.com/knx
