A diverse portfolio

Designs for every lifestyle

At ABB we attach great importance to the details, whether it's a switch's acoustics, its feel, surface, color or material. And it's the range of these details that means we can now offer you an extensive portfolio of switches to suit both you and your living situation.

An element of sophistication

Forged from one of nature's most timeless materials, the Millenium range of metal switches ensures your interior makes exactly the statement you intended.

Millenium

Strikingly impressive

A Millenium switch is engineered to impress. It perfectly complements cool environments with its striking, ultra-slim design and distinctive, classy metal finish while its wide range of functionality will meet even the highest of customer demands.

The touch of style

The two new colors Mocha brown and Dune sand are inspired by natural elements to bring a warm feeling to the interior design of contemporary spaces.

Simplicity for timeless design

Inora's simple and elegant design perfectly complements any interiors of homes and commercial buildings. With its functional simplicity it creates a timeless aesthetic.

Naturally aesthetic

Nature rarely presents us with straight lines and the Concept bs range of switches reflects this. Rather than rigidly sticking to squares, it steps outside the box to add some subtle curves to your interior design.

—

Concept bs

A natural flow

With their distinctive curves, Concept bs switches add an extra subtlety to your room design. Shaped around straight lines, yet not restricted to them, the range comes in a wide choice of colours, is packed with functionality and helps your ideas flow in line with their individual design.

Busch-axcent®

Subdued and elegant

Busch-axcent® combines puristic optics and qualitative high-value thermoplastic with modern subdued colors which give their style an unobtrusive elegant appearance.

Mounting sets for Busch-axcent® flat allow flush-mounted installation of the Busch-axcent® range.

Busch-axcent® pur

Genuine high-quality materials for individualists

At a time, in which individualism becomes ever more important, the desire for a home that gives expression to personality is on the increase. The modified Busch-axcent® pur range does justice to this desire: with new materials of even higher quality and individuality as well as colors in combination with the usual puristic optics of Busch-axcent®.

A class of its own

Your own living space deserves the very best; Busch-dynasty® offers just that. Handcrafted and developed together with international design experts, this switch offers an almost lavishly luxurious aesthetic.

—
01

—
01

Illustration in original size

The cover frame measures 106 mm x 106 mm x 12 mm (w x h x d). Material: the rocker is made of thermoplastic (PC), impact and break-proof, UV-resistant, PVC- and halogen-free; the frame is made of real metal surface except anthracite and ivory white

01

02

03

Busch-dynasty®

Each switch is one-of-a-kind

The brass used for this switch range is hand polished or brushed for an antique look and feel. The same care and attention is given to the rocker made of high-quality plastic – it's also hand-painted or brushed. Busch-dynasty® gives you a genuinely unique specimen with its own personal touch.

- 01 polished brass, decor, ivory white

Outstandingly consistent

Unwaveringly stylish and consistent in form, material and design: pure stainless steel offers 100% quality and durability.

—
01

—
01
Illustration in original size
The cover frame measures
80 mm x 80 mm x 11 mm (w x h x d).
Material: the rocker and frame are
made of stainless steel, the range is
surface treated in a special manufac-
turing process. Fingerprints or other
greasy stains are kept to a minimum.

pure stainless steel

One hundred percent

pure stainless steel uses 100 % stainless steel for cover frames and switches. At the same time, an invisible anti-fingerprint coating ensures that you leave an impression but without the imprint.
