

ABB-free@home® LED Dimmers

Constant and reliable dimming
of LEDs easier than ever

Nowadays dimming lights is a crucial functionality in residential buildings. It enables you to perfectly adjust the light conditions to your personal needs: Realize a cozy atmosphere in the living room or ensure a constant light in the kitchen during cooking. The new ABB-free@home® LED Dimmers match perfectly to the needs of the market: They ensure constant dimming behavior, without having negative effects like flickering and glowing. abb.com/buildings
