

ABB to cut downtime for Ecuador's state oil company

PETROAMAZONAS EP

APPLICATION

Oil & gas

COUNTRY / CUSTOMER / SITE

Ecuador / Petroamazonas, state-owned oil company

CUSTOMER NEEDS

Maintaining continuous power supplies and process up-time are mission-critical in the oil and gas sector. Petroamazonas needed to avoid unexpected generator shutdowns that limit productivity at four new facilities where diesel generators supply electricity for essential plant processes

SOLUTION

- Integrated communication modules connect with Petroamazonas local control systems
- Remote diagnostic function delivers an effective preventive maintenance strategy
