of touch.

Accentuate – fade, or play

Bring unity into a space or break and divide it by using switch ranges. Products from Impressivo and other design ranges are compatible with each other and they can be freely combined.

All essential functions

Functions

Impressivo White matt and Black Matt colours contain all the essential functions required for switch ranges. Switches, socket outlets, movement detectors and dimmers are a natural part of the product ranges.

Soft touch surface

In addition to modern appearance, White Matt and Black Matt are also pleasant to touch. Impressivo Matt colours have soft touch surface that feels enjoyable every time you switch the light on or plug in an electrical device.

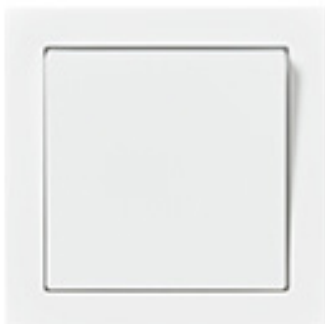

Dry and humid environments

Matt surface -ranges can be installed in both dry and humid environments and also outside for example, as a socket outlet or car heating or decorative lighting.

Safety

White Matt and Black Matt combine all the familiar elements of Impressivo like easy installation, reliability and safety. Socket outlets are safety shuttered for extra protection and security for children and other users. Socket outlets are always safe to use.

Natural elegance. White Matt as a part of modern architecture. Fits perfectly with materials like timber, wood, CLT and concrete.

Renovate with elegance

Pleasant touch and modern design of Impressivo Matt -ranges are now available also for renovation projects. With White and Black Matt surface-mounted products you can bring your electrification up to date and complete an astonishing renovation.

Finishing touches to your renovation

Utilize your existing flush mountings and supplement your system using safe and reliable White Matt and Black Matt surface-mounted products.

With Matt surface ranges you can combine modern design with functions which meet all requirements of contemporary living.

Impressivo Matt -ranges offer surface mounted products including socket outlets for lath and corner installation and for both common dry and wet environments.

Hotels

Luxurious Impressivo Matt colours are excellent choice in hotel rooms, lobbies and restaurants. Matt surface fits naturally with different kind of styles by adding its own modern edge.

First touch in hotel room

The first touch is often when you insert the hotel key card in the card switch. Thanks to new White Matt and Black Matt Impressivo, now it feels pleasantly soft.

White and Black Matt work perfectly with natural materials like wood and stone by creating balanced and calm ambience of hotel room.

Easier to control the hotel with KNX

All rooms' lighting modes for evening-, day- and night can be managed with KNX system, even room service calls can be implemented to the KNX system.

Hotel visitors will feel the luxury by just switching lights on and will be imminently on good mood when entering the hotel room.

Also available in ABB-free@home- and KNX-systems

Impressivo Matt -ranges are also available in ABB-free@home- and KNX-systems.

White Matt and Black Matt bring a unique impression and pleasant feel of touch.
