

ELDS PRODUCT LIFE CYCLE SERVICES, MAY 17, 2021

Last buy notification – UPDATE

Medium voltage HCEP instrument transformers

ABB announced the last buy notice in 2020 for the medium voltage HCEP instrument transformers listed below. This notice becomes effective May 17, 2021 according to the ABB Electrification Business Distribution Solutions (ELDS) Product Life Cycle Policy.

Instrument transformers (ITs) cannot be serviced, only replaced, therefore the limited life-cycle phase is modified for ITs. While in the limited phase, the products on existing frame agreements will remain available throughout the life of the frame agreement. However, they cannot be added to new frame agreements, included in renewed frame agreements, or sold outside of existing frame agreements.

Equivalent or improved products types are available for new installations and retrofits. Contact your ABB representative for more information.

UPDATE MAY 17, 2021: The last buy date for the HCEP voltage transformers (VTs) listed below has been extended from the end of June 2021, to the end of September 2021. Effective October 1, 2021 they will be moved to the limited product phase before becoming obsolete in 2022.

Legacy HCEP VT	Last buy date	Start of limited phase	Replacement HCEP VT
VOY-15G	September 30, 2021	October 1, 2021	VOG-15R, VOG-15B
VOY-20G	September 30, 2021	October 1, 2021	VOG-20B, VOG-20BR
VOZ-75, VOZ-75E	September 30, 2021	October 1, 2021	VOZ-75B, VOZ-75BE
VOZ-11, VOZ-11E, VOY-11	September 30, 2021	October 1, 2021	VOZ-11B/BE, VOY-11B
VOZ-11M and VOY-11M	September 30, 2021	October 1, 2021	VOZ-11G, VOY-11G
