

TwinLine-X - The plus in flexibility

Side-by-side floor standing cabinets from the TwinLine N 55 series

Simply side-by-side connection: The new cabinet series TwinLine-X in earthed and double-insulated version provide to the side-by-side connection more flexibility. The floor standing cabinets with a depth of 400 mm ensure easy implementation of busbars and are due to the uniform accessory concept of the TwinLine system is very easy to assemble. The result is an extremely flexible construction.
