## 05 Editorial

---

### Better decisions

- 08 **RobotStudio® AR Viewer app**  
Augmented reality for planning robot installations
- 12 **Informed choice**  
Topology-based contextual alarms
- 18 **Smooth Operation**  
Augmented Operator for efficiency and consistency
- 24 **Building blocks**  
Modular process automation pilot plants

---

### Energy

- 34 **Quality control**  
Better power quality for food and beverage productivity
- 40 **Data center energy efficiency**  
It all adds up to measurement accuracy
- 46 **Better decision making**  
Digital solutions for electrical rotating equipment performance
- 52 **Drilling down**  
Automated seabed drill technology for extreme conditions

---

### Transportation

- 60 **Tracking analytics**  
Wheel-wear analytics in railway traction
- 66 **Reimagining vehicle charging**  
An electric experience takes shape
- 70 **Remote voyages**  
ABB technologies ensure that ships are never alone

---
