What we do in Atlanta

Atlanta is home to ABB's Electrification business area in the US and provides power quality and reliability technology to commercial and industrial businesses. The Electrification business area provides equipment, software and services to control, protect and optimize electrical assets in commercial and industrial applications.

Who we serve

ABB provides customers across various industries with end-to-end product and service solutions that help ensure the reliability and protection of their electrical infrastructure. Industries serviced by industrial solutions include critical power consumers like hospitals, data centers, industrial manufacturers, mining, petrochemical, and residential and commercial buildings.

ABB in the U.S.

ABB is a leading global technology company that energizes the transformation of society and industry to achieve a more productive, sustainable future.
