What we do in Memphis

The Memphis office of ABB Installation Products, formerly Thomas & Betts, creates solutions to safely connect and protect electrical systems that power businesses, cities, homes and transportation. With more than 200,000 products under 38 brands, ABB Installation Products solutions are found wherever electricity is used around the world and in space.

The Robert M. Thomas Innovation Center located here builds on over a century of innovation to continue pioneering next generation electrification products that provide a safer, smarter and more reliable flow of electricity, from source to socket.

Who we serve

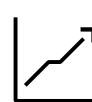

Our products are available through electrical distributors and home retailers nationwide and used by contractors, installers and engineers across infrastructure and commercial construction, industrial, manufacturing and utilities.

ABB in the US

ABB is a leading global technology company that energizes the transformation of society and industry to achieve a more productive, sustainable future.
