200

Operational since
1995

What we do in Ozark

Manufacture AC industrial electric motors ranging from 7.5 to 30 horsepower. Producing 100,000 motors per year, motors built in Ozark are used in a wide variety of industrial applications, including pumps, fans, compressors, conveyors and other industrial applications. This plant received the Plant Services Plant of the Year award in 2008.

Who we serve

The electric motors produced in Ozark are used in a very broad range of industries and manufacturing including agriculture, food and beverage, mining and aggregate, minerals, chemicals, conveying. Original equipment manufacturers (OEMs) use motors made in Ozark as essential components in their products used to serve these industries. Our product offering is designed around our customers' needs for reliability, availability, variety, and energy savings.
