

TECHNICAL DATASHEET

Harnessflex® X-Temp™ Connector Interfaces

For Kostal Automotive Connectors

Single junction straight and 90° elbow fittings providing high integrity connections between Kostal automotive connectors and Harnessflex® X-Temp $^{\text{TM}}$ conduit systems.

In addition, 90° elbow versions allow the conduit to swivel 360° around the connector housing, sufficient to avoid the problems associated with one-piece interfaces of overflexing due to movement or vibration.

Features and Benefits:

- External design for unrestricted bore and quick assembly with no tools
- High pull-off strength conduit corrugations sit tightly into joiner junctions
- Conduit size labels junction indicates nominal conduit size to aid installation
- Strain relief
- Abrasion and vibration protection
- Protects cable against high pressure washing
- A degree of mechanical protection
- Conduit retention feature to aid assembly

Applications:

Suitable for use with Kostal connector 10092979

Temperature range:

- Permanent Temperature -40C to +160
- Long Term Temperature (30,000 Hours) +185C
- Short Term Temperature (3,000 Hours) +200C

UV Resistance:

Medium

Material:

Polyamide (Nylon) PA46

Ingress protection:

IP40

Conforms to:

- CE Mark to the Low Voltage Directive
- RoHS compliant to 2015/863
- End of Life Vehicle Directive (ELV) EU200/53/EC
- UL94 V2
- UL94 RTI 150 (Elec)

Fire performance:

- Self Extinguishing
- Low smoke toxicity
- Halogen free

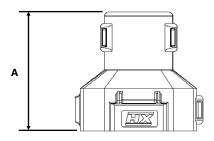

Chemical resistance:
