

Product: **LFA/S 2.1 Blower/Fan Coil Actuator, 2-fold, MDRC**

Type: **LFA/S 2.1**

Current application program: **Fancoil 2f 6A/1.1**

=====

Software-Information

to: **Fancoil 2f 6A/1.1**
from: 15/2008

Changed are: Together with the KNX certification the 1Byte object No. 23 "Change Limitation" is removed. To change the limitation by a 1Bit Object is still possible.

Telegrams, with a value greater as the maximum fan speed (3 or 5), send to the object *Status speed*, will ignored and not longer transform to the maximum speed (3 or 5).

The following application programs can be converted:

Application program	Conversion is possible completely
Luefter 1f 6A/1	Luefter 1f 6A/1.1
Luefter 2f 6A/1	Luefter 2f 6A/1.1

Software-Information

to: **Fancoil 2f 6A/1a**
from: 01/2007

The wording only in the English application has changed:

The item „stage“ has changed in „speed“ and „transmission“ has changed in „sending“.
