=====

Software Information	to:	Room Controller modular 4f2/1.0c
	from:	01/2021

1. Correction
- Change of the ETS catalog structure. No further changes to the previous version.

=====

Software Information	to:	Room Controller modular 4f2/1.0b
	from:	04/2014

1. Correction
- Some minor corrections relating to the automatic function of the shutter/blind actuator:
- 1) On active automatic function the settings "Stop" and "none" were ignored
 - 2) Moving to the end positions were not stored in some cases
 - 3) After ending the safety function in some cases the shutter/blind moved to the automatic position although the automatic mode was previously not active.

Software-Information	to:	Room Controller modular 4f2/1.0a
	from:	10/2009

1. Error correction: flag "Grp"
- The program flag "Grp" in the ETS was not set correctly. The flag indicates, if the group addresses of the device are synchronized with the ETS. The error is solved in version /2.0a.
