

DSMS series stepper motor

Current life cycle status

The DSMS series stepper motors are in the Classic phase since 1.07.2017 according to the ABB life cycle model outlined above.

Life cycle plan

It is planned to move DSMS series motors to Limited phase during 2018, after which it will be transferred to Obsolete phase.

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Recommended actions

Currently there are no plans to introduce an alternative stepper motor product. An equivalent product is available from the manufacturer Schneider.

Further information

For more information on drives life cycle management and available services contact your local ABB organization, ABB motion support (motionsupport.uk@gb.abb.com) or for additional product information go to www.abb.com/drives.
