

Baldor Series II Servo Drives

Current life cycle status

The Baldor Series II product series are in Limited phase effective 1.11.2015 according to the ABB life cycle model outlined above.

Life cycle plan

The Baldor Series II product series will be transferred to the Obsolete phase 1.1.2019.

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Recommended actions

Migrate to alternative product lines.

Migration guide and support is available via technical support: motionsupport.uk@gb.abb.com.
