

TECHNICAL DATA SHEET

Conduit Beam Clamps

Parallel clamps, stainless steel

Steel City®

Conduit beam stainless-steel beam clamps used for pipe and conduit

Features:

- For use with rigid and PVC-coated conduit.
- Use to mount pipe or conduit parallel to the flange of I-beams or channel easily without having to drill holes.
- Made from stainless-steel to help prevent corrosion.
- Easily installed using standard hand tools.
- Requires little maintenance or repair.
- Does not require touch up or paint.

Applications:

- Used to mount pipe or conduit.

Conforms to:

- ASTM A351
- ASTM F593

Material:

- Body and hardware made from 316 SS.
